Contested Grounds Essays On Nature Culture And Power:

Contested Grounds Amita Baviskar, 2008 Articles from a conference held at Kathmandu in 2003 **Inequality, Democracy, and the Environment** Liam Downey, 2015-12-18 Winner American Sociological Association Section on Environment and Technology Allan Schnaiberg Outstanding Publication Award The world currently faces several severe social and environmental crises including economic under development widespread poverty and hunger lack of safe drinking water for one sixth of the world's population deforestation rapidly increasing levels of pollution and waste dramatic declines in soil fertility and biodiversity and global warming *Inequality Democracy and the Environment* sheds light on the structural causes of these and other social and environmental crises highlighting in particular the key role that elite controlled organizations institutions and networks play in creating these crises Liam Downey focuses on four topics globalization agriculture mining and U S energy and military policy to show how organizational and institutional inequality and elite controlled organizational networks produce environmental degradation and social harm He focuses on key institutions like the World Bank the International Monetary Fund the U S Military and the World Trade Organization to show how specific policies are conceived and enacted in order to further elite goals Ultimately Downey lays out a path for environmental social scientists and environmentalists to better understand and help solve the world's myriad social and environmental crises *Inequality Democracy and the Environment* presents a passionate exposé of the true role inequality undemocratic institutions and organizational power play in harming people and the environment Places of Nature in Ecologies of Urbanism Anne Rademacher, K. Sivaramakrishnan, 2017-03-01 If twenty first century urbanization is understood as a problem its regional epicenter is the cities in Asia Facing unprecedented diversity in scale scope and environmental dynamics in the Asian urban experience scholars will need an approach that can truly capture the significance of place and context The challenge as this volume illustrates can be met by the analytic of ecologies of urbanism Eschewing a rigid single ecology the contributors identify multiple forms of nature in biophysical cultural and political terms that have discernable impact on power relations and human social action The case studies in this book including leopards in Mumbai a network of tubewells in northern India an island that grows through reclamation in Hong Kong and a railway continuum linking Khon Kaen and Bangkok all attest to the versatility of ecologies of urbanism Guided by urban processes rather than geopolitical boundaries *Places of Nature in Ecologies of Urbanism* offers a picture of urban Asia that is composed of varied ecologies of urbanism This intellectually adventurous work displays a deep cultural ethical sensibility in its close attention to geographically variegated forms of place making A first rate contribution to urban scholarship on Asia and beyond Vinay K Gidwani Department of Geography Environment and Society and Institute for Global Studies University of Minnesota This volume derives from a several year collaborative effort to bring scholars from different disciplines together to reflect on the constructed shifting and contested meanings of the forward slash separating Urban Natures The essays in this volume are bold rigorous original and sometimes

even witty Without losing track of the intellectual genealogies that enable their collective effort the authors in *Places of Nature in Ecologies of Urbanism* give us new tools for imagining urban Asia's possible futures William Glover Department of History University of Michigan

Beyond Colonialism, Development and Globalization Dominique Caouette, Dip Kapoor, 2015-12-15 Development studies is in a state of flux A new generation of scholars has come to reject what was once regarded as accepted wisdom and increasingly regard development and globalization as part of a continuum with colonialism premised on the same reductionist assumption that progress and growth are objective facts that can be fostered measured assessed and controlled Drawing on a variety of theoretical perspectives and approaches this book explores the ways in which social movements in the Global South are rejecting Western centric notions of development and modernization as well as creating their own alternatives By assessing development theories from the perspective of subaltern groups and movements the contributors posit a new notion of development from below one in which these movements provide new ways of imagining social transformation and a way out of the developmental dead end that has so far characterized post development approaches *Beyond Colonialism Development and Globalization* therefore represents a radical break with the prevailing narrative of modernization and points to a bold new direction for development studies

From Urban National Parks to Natured Cities in the Global South Frédéric Landy, 2018-07-20 This important volume focuses on the sensitive issue of interrelationships between national parks situated near or within urban areas and their urban environment It engages with both urban and conservation issues and compares four national parks located in four large cities in the global South Rio de Janeiro Cape Town Mumbai and Nairobi Though primarily undertaken as academic research the project has intensively collaborated with the institutions in charge of these parks The comparative structure of this volume is also original and unique each of the chapters incorporates insight from all four sites as far as possible The term *naturbanity* expresses the necessity for cities endowed with a national park to integrate it into their functioning Conversely such parks must take into account their location in an urban environment both as a source of heavy pressures on nature and as a nexus of incentives to support their conservation The principle of non exclusivity that is neither the city nor the park has a right nor even the possibility to negate the other's presence summarizes the main argument of this book *Naturbanity* thus blurs the old modern dichotomy of nature culture animals and human beings can often jump the physical and ideological walls separating many parks from the adjacent city The 13 chapters and substantive introduction of this volume discuss various aspects of *naturbanity* the histories of park creation interaction between people and parks urban governance and parks urban conservation models wildlife management environmental education and so on This is a must read for students and researchers interested in social ecology social geography conservation urban planning and ecological policy

Regional Political Ecologies and Environmental Conflicts in India Sarmistha Pattanaik, Amrita Sen, 2022-11-07 This book focuses on the regional political ecologies RPEs of environmental conflicts in India It explores broadly landscape based analyses of political

economic and social issues which impact environmental changes challenges and conflicts at local and micro local levels The chapters in this volume examine the intervention of different stakeholders in the management of various regional ecological landscapes in India including forests rivers canals creeks and wetlands The volume is an interdisciplinary endeavour weaving together contextual narratives through a combination of approaches from sociology anthropology geography political studies and environmental history Using such core approaches the book studies the place based dynamisms within the regional environmental conflicts in the selected conservation landscapes It provides empirical reflections on transboundary issues rural urban transitions middle class environmentalism identity conflicts decentralized natural resource management and the role of political institutions Regional Political Ecologies and Environmental Conflicts in India will be of great interest to students and scholars of Political Ecology and South Asian Environmental Studies Entangled Ecologies as Metaphors of State Design Mathew A. Varghese, 2023-11-30 This book takes a unique approach to the ethnographic and analytical explorations of ecologies in the making The core theme of the work will be the emerging anthropocene contexts that simultaneously bring unprecedented human interactions with the non human as well as the emergence of hybrid ecologies There will be dependence on existing literature own ethnographic work that has already went into this the closer introspection of immediate geographies as well as the pertinent debates There has been a reconfiguration of meaning and nature of spaces in the context of social relations produced by neo liberal globalization States as they have been are transforming and are influenced by policies made beyond borders This work is marked out by careful enquiry on ecologies in the making with the backdrop of distinct regional developmentalist trajectories as well as specific ethnography from Kerala South West India **Unruly Hills** Bengt G. Karlsson, 2011-05-01 The questions that inspired this study are central to contemporary research within environmental anthropology political ecology and environmental history How does the introduction of a modern capitalist resource regime affect the livelihood of indigenous peoples Can sustainable resource management be achieved in a situation of radical commodification of land and other aspects of nature Focusing on conflicts relating to forest management mining and land rights the author offers an insightful account of present day challenges for indigenous people to accommodate aspirations for ethnic sovereignty and development The Violent Underpinnings of American Life Liam Downey, 2023-10-03 The Violent Underpinnings of American Life explains how sexual violence against women and police and political violence against Black people maintains social order and elite power in the United States *Development of Environmental Laws in India* Kanchi Kohli, Manju Menon, 2022-02-03 Development of Environmental Laws in India highlights the dynamic nature of environmental law making in India between the judiciary the executive and the parliament This has led to the creation of a wide range of environmental institutions and bodies with varied roles and responsibilities The book contains a large volume of materials from the late 1990s which show a marked shift in the nature of environmental governance in India These materials offer an understanding of the contemporary debates in environment law

in the context of India's economic liberalisation. The materials are thematically organized and presented in an accessible manner. The chapters contain definitions and specific clauses from the legal instruments and refer to court orders and judgements on these themes.
