Troubling Masculinities Glen Donnar, 2020-07-23 *Troubling Masculinities* Terror Gender and Monstrous Others in American Film Post 9 11 is the first multigenre study of representations of masculinity following the emergence of violent terror as a plot element in American cinema after September 11 2001 Across a broad range of subgenres including disaster melodrama monster movies postapocalyptic science fiction discovered footage and home invasion horror action thrillers and frontier westerns author Glen Donnar examines the impact of terror Others from Arab terrorists to giant monsters especially in relation to cinematic representations in earlier periods of national turmoil Donnar demonstrates that the reassertion of masculinity and American national identity in post 9 11 cinema repeatedly unravels

across genres Taking up critical arguments about Hollywood's attempts to resolve male crisis through Orientalizing figures of terror he shows how this failure reflects an inability to effectively extinguish the threat or frightening difference of terror The heroes in these movies are unable to heal themselves or restore order often becoming as destructive as the threats they are supposed to be fighting Donnar concludes that interrelated anxieties about masculinity and nationhood continue to affect contemporary American cinema and politics By showing how persistent these cultural fears are the volume offers an important counternarrative to this supposedly unprecedented moment in American history

Screening Images of American Masculinity in the Age of Postfeminism Elizabeth Abele,, John A. Gronbeck-Tedesco, 2015-12-03 This collection of essays presents a sampling of film and television texts interrogating images of U S masculinity Rather than using postfeminist as a definition of contemporary feminism this collection uses the term to designate the period from the late 1980s on as a point when feminist thought gradually became more mainstream The movies and TV series examined here have achieved a level of sustained attention from critical acclaim to mass appeal to cult status Instead of beginning with a set hypothesis on the effect of the feminist movement on images of masculinity on film and television these chapters represent a range of responses that demonstrate how the conversations within these texts about American masculinity are often open ended allowing both male characters and male viewers a wider range of options Defining the relationship between U S masculinity and American feminist movements of the twentieth century is a complex undertaking The essays collected for this volume engage prominent film and television texts that directly interrogate images of U S masculinity that have appeared since second wave feminism The contributors have chosen textual examples whose protagonists actively struggle with the conflicting messages about masculinity These protagonists are more often works in progress acknowledging the limits of their negotiations and self actualization These chapters also cover a wide range of genres and decades from action and fantasy to dramas and romantic comedy from the late 1970s to today Taken together the chapters of Screening Images of American Masculinity in the Age of Postfeminism interrogate the possible screened in popular movies and television series confronting the multiple and

competing visions of masculinity not after or beyond feminism but rather in its very wake
