Multinational Corporations and Organization Theory Christoph Dörrenbächer, Mike Geppert, 2017-02-24 This volume covers a range of on going and newly emerging debates in the study of multinational companies MNCs A key aim is to consolidate and make available in one place new conceptual methodological and critical MNC research

Market Entry Strategies in Eastern Europe in the Context of the European Union Michael Klug, 2007-11-03 There are many reasons why firms decide to extend their business operations by entering foreign markets Whether it is a defensive step aimed at avoiding the consequences of saturating domestic markets or an offensive strategy based on the expectations of unusual profits the most common market entry drivers are widely discussed and understood What remains open is the most intriguing question of the selection of a particular market entry mode and the factors determining the right choice On a theoretical ground the problem may be reduced to the issue of how many links of the Value Chain should be moved abroad in the process of international expansion In practical terms the choice of a market entry mode means a set of decisions taken in each particular case of a firm going international The complexity of the task involves many different areas like the amount of risk the scope of control the level of capital involvement and financial efficiency This is one of the reasons why there is no universal theory explaining the optimal way of making a successful market entry The multitude of views on this subject does not make the question easier

Multinational Enterprises and the Law Peter Muchlinski, 2021-02-18 Multinational Enterprises and the Law is the only comprehensive contemporary and interdisciplinary account of the techniques used to regulate multinational enterprises MNEs at the national regional and multilateral levels In addition it considers the effects of corporate self regulation and the impact of civil society and community groups upon the development of the legal order in this area The book has been thoroughly revised and updated for this third edition making it a definitive reference work for students researchers and practitioners of international economic law business corporate and commercial law development studies and international politics Split into four parts the book first deals with the conceptual basis for MNE regulation It explains the growth of MNEs their business and legal forms and the relationship between them and the effects of a globalized economy and society now increasingly challenged by recently revived nationalist economic policies upon the evolution of regulatory agendas in the field In addition the limits of national and regional jurisdiction over MNE activities are considered a question that arises throughout the specialized areas of regulation covered in the remainder of the book Part II covers the main areas of economic regulation including controls over and the liberalization of entry and establishment tax company and competition law and the impact of intellectual property rights on technology diffusion and transfer A specialized chapter on the regulation of multinational banks in the wake of the global financial crisis is new to this edition Part III introduces the social dimension of MNE regulation covering labour rights human rights and environmental issues Finally Part IV deals with the contribution of international investment law to MNE regulation and to the control of investment

risks covering the main provisions found in international investment agreements their interpretation by international tribunals the process of investor state arbitration and how concerns over these developments are leading to reform proposals
