million people worldwide is also a strategic language in current global affairs By using this carefully thought out resource self study language learners will walk away with a comprehensive understanding of the basics of written Persian Farsi the dialect covered in this book and spoken in Iran South Carolina's Turkish People Terri Ann Ognibene, Glen Browder, 2018-04-15 The story of misunderstood immigrants and their struggle to gain recognition and acceptance in the rural South Despite its reputation as a melting pot of ethnicities and races the United States has a well documented history of immigrants who have struggled through isolation segregation discrimination oppression and assimilation South Carolina is home to one such group known historically and derisively as the Turks which can trace its oral history back to Joseph Benenhaley an Ottoman refugee from Old World conflict According to its traditional narrative Benenhaley served with Gen Thomas Sumter in the Revolutionary War His dark hued descendants lived insular lives in rural Sumter County for the next two centuries and only in recent decades have they enjoyed the full blessings of the American experience Early scholars ignored the Turkish tale and labeled these people tri racial isolates and later writers disparaged them as so called Turks But members of the group persisted in claiming Turkish descent and living reclusively for generations Now in South Carolina s Turkish People Terri Ann Ognibene and Glen Browder confirm the group s traditional narrative through exhaustive original research and oral interviews In search of definitive documentation Browder combed through a long list of primary sources including historical reports public records and private papers He also devised new evidence such as a reconstruction of Turkish lineage of the 1800s through genealogical analysis and genetic testing Ognibene a descendant of the state s Turkish population conducted personal interviews with her relatives who had been in the community since the 1900s They talked at length and passionately about their cultural identity their struggle for equal rights and the mixed benefits of assimilation Ognibene s and Browder s findings are clear South Carolina s Turkish people finally know and can celebrate their heritage

Water and Energy Gustaf Olsson, 2015-06-14 Rapid and important developments in the area of energy water nexus over the last two to three years have been significant This new edition of Water and Energy Threats and Opportunities is timely and continues to highlight the inextricable link between water and energy providing an up to date overview of the subject with helpful detailed summaries of the technical literature Water and Energy has been up dated throughout and major changes are new chapters on global warming and fossil fuels including shale gas and fracking the consequences of the Deepwater Horizon accident in the Mexican Gulf and the Niger Delta oil spills new developments in hydropower and continued competition between food water and energy Water and Energy Threats and Opportunities 2e creates an awareness of the important couplings between water and energy It shows how energy is used in all the various water cycle operations and demonstrates how water is used and misused in all kinds of energy production and generation Population increase climate change and an increasing competition between food and fuel production create enormous pressures on both water and energy availability Since there is no replacement for water water security looks more crucial than energy security This is

true not only in developing countries but also in the most advanced countries For example the western parts of the USA suffer from water scarcity that provides a real security threat Part One of the book describes the water energy nexus the conflicts and competitions and the couplings between water security energy security and food security Part Two captures how climate change population increase and the growing food demand will have major impact on water availability in many countries in the world Part Three describes water for energy and how energy production and conversion depend on water availability As a consequence all planning has to take both water and energy into consideration The environmental including water consequences of oil and coal exploration and refining are huge in North America as well as in the rest of the world Furthermore oil leak accidents have hit America Africa Europe as well as Asia The consequences of hydropower are discussed and the competition between hydropower generation flood control and water storage is illustrated The importance of water for cooling thermal power plants is described as this was so tragically demonstrated at the Fukushima nuclear plants in 2011 Climate change will further emphasize the strong coupling between water availability and the operation of power plants Part Four analyses energy for water how water production and treatment depend on energy The book shows that a lot can be done to improve equipment develop processes and apply advanced monitoring and control to save energy for water operations Significant amounts of energy can be saved by better pumping the reduction of leakages controlled aeration in biological wastewater treatment more efficient biogas production and by improved desalination processes There are 3 PowerPoint presentations available for Water and Energy threats and opportunities 2e About the author Gustaf Olsson Professor Em in Industrial Automation Lund University Sweden Since 2006 Gustaf has been Professor Emeritus at Lund University Sweden Gustaf has devoted his research to control and automation in water systems electrical power systems and process industries From 2006 to 2008 he was part time professor in electrical power systems at Chalmers University of Technology Sweden He is guest professor at the Technical University of Malaysia UTM and at the Tsinghua University in Beijing China and he is an honorary faculty member of the Exeter University in UK Between 2005 and 2010 he was the editor in chief of the journals Water Science and Technology and Water Science and Technology Water Supply IWA Publishing From 2007 to 2010 he was a member of the IWA Board of Directors and in 2010 he received the IWA Publication Award In 2012 he was the awardee of an Honorary Doctor degree at UTM and an Honorary Membership of IWA Gustaf has guided 23 PhDs and a few hundred MSc students through their exams and has received the Lund University pedagogical award for distinguished achievements in the education The Lund University engineering students elected him as the teacher of the year He has spent extended periods as a guest professor and visiting researcher at universities and companies in the USA Australia and Japan and has been invited as a guest lecturer in 19 countries outside Sweden He has authored nine books published in English Russian German and Chinese and contributed with chapters in another 19 books as well as more than 170 scientific publications
