Cultural History And Postmodernity:

Cultural History and Postmodernity Mark Poster, 1997 In a series of incisive readings of signature historical works Mark Poster charts the move from social history to new practices of cultural history that are drawing strength from poststructuralist interpretive strategies and raising issues found in feminist and postcolonialist discourse In the process he sets forth an outline for a postmodern historiography that can negotiate the contested terrain between the ambiguities of discourse and the pull of the real As Poster provides close readings of leading historians and theorists such as Lawrence Stone Francois Furet Michel de Certeau and Michel Foucault key themes animate his work the often irreducible difference between past and present the relationship of writing and representation to power and domination the dissolving distinctions between high and low culture production and consumption and reality and fiction and most important a new perspective on human agency and the construction of political subjects

On the Future of History Ernst Breisach, 2007-11-01 What does postmodernism mean for the future of history Can one still write history in postmodernity To answer questions such as these Ernst Breisach provides the first comprehensive overview of postmodernism and its complex relationship to history and historiography Placing postmodern theories in their intellectual and historical contexts he shows how they are part of broad developments in Western culture Breisach sees postmodernism as neither just a fad nor a universal remedy In clear and concise language he presents and critically evaluates the major views on history held by influential postmodernists such as Derrida Foucault Lyotard and the new narrativists Along the way he introduces to the reader major debates among historians over postmodern theories of evidence objectivity meaning and order truth and the usefulness of history He also discusses new types of history that have emerged as a consequence of postmodernism including cultural history microhistory and new historicism For anyone concerned with the postmodern challenge to history both advocates and critics alike *On the Future of History* will be a welcome guide

Cultural Politics and Political Culture in Postmodern Europe, 1997-01-01 The present volume assembles essays from a broad cultural and professional spectrum around the question of European cultural identity The heterogeneity of the contributors their differing points of departure and methods attests to a tension in intellectual communities which today is more intense than ever Europe's identity crisis is not merely an empirical matter It reflects a far deeper and far older discursive crisis The mandate of Europe's traditional intellectual institutions to preserve and police their own cultural heritage has proved incapable of evolving in a manner sufficient to account for the mutation in its object European culture It is not merely that Europe's identity like any identity in the flux of history has changed Rather the notion of identity the very basis of any questions of who we are where we are going and the appropriate political forms and social institutions for

Leitch, 1996-01-01 Marching through a series of case studies from a wide range of fields Leitch English Purdue U argues that disorganization and disaggregation characterizes postmodern times He compares the phenomena to imploded geological formations with historical strata in kaleidoscopic disarray that engulfs economics politics and culture Includes four color reproductions of paintings Annotation c by Book News Inc Portland Or **The Postmodern Challenge: Perspectives East and West**, 2023-12-04 This volume is designed to bridge a gap in the current theoretical debate about the nature scope and relevance of postmodern perspectives in the humanist and social sciences in Eastern and Western Europe While the debate has been reasonably comprehensive and certainly abrasive in Western European and Anglophone countries it has signally failed to incorporate the viewpoints of Eastern European scholars and intellectuals Even the current appropriation of Mikhail Bakhtin as a prophet of the postmodern is paradoxically a monologic engagement with his thought rather than a dialogic encounter of cultures Doubtless different historical experiences ideology and social aspirations go

some way to account for the weariness of Eastern Europe with postmodern challenge and its glad embrace by Western scholars The volume comprises some fifteen essays by leading historians literary theorists and social scientists from Western and Eastern Europe and America It has a threefold aim firstly to illuminate the distinctiveness of current Western and Eastern European theorizing about history and society secondly to reveal points of tension and disagreement and finally to open up a space for a meeting of seemingly incompatible worlds
