China's Evolving Approach to Peacekeeping Marc Lanteigne, Miwa Hirono, 2013-09-13 China has become an enthusiastic supporter of and contributor to UN peacekeeping Is China s participation in peacekeeping likely to strengthen the current international peacekeeping regime by China s adopting of the international norms of peacekeeping Or on the contrary is it likely to alter the peacekeeping norms in a way that aligns with its own worldview And as China s international confidence grows will it begin to consider peacekeeping a smaller and lesser part of its international security activity and thus not care so much about it This book aims to address these questions by examining how the PRC has developed its peacekeeping policy and practices in relation to its international status It does so by bringing in both historical and conceptual analyses and specific case oriented discussions of China s peacekeeping over the past twenty years The book identifies the various challenges that China has faced at political conceptual and operational levels and the ways in which the country has dealt with those challenges and considers the implication of such challenges with regards to the future of international peacekeeping This book was originally published as a special issue of International Peacekeeping

China and the International Human Rights Regime Rana Siu Inboden,2021-03-18 Prior to China s entry into the United Nations UN in 1971 there was fierce debate about its anticipated behavior and impact Proponents of Chinese membership argued that integration into the United Nations would ultimately change or civilize the People s Republic of China PRC while skeptics countered that the the UN is not going to serve as a reform school for Peking and that China was likely to attempt to alter the international system When Chinese Communist Party CCP leaders failed to challenge the existing global order and eventually adjusted their own priorities and goals to fit into it and even benefit from the prevailing international order its behavior alleviated concerns of destructive behavior Yet the larger question of China s longer term impact on and role in international regimes remains an open question Even if the PRC has not acted as a spoiler of the international system are there subtle yet significant ways that it has pursued change toward international regimes This question become more pressing and salient with China s ascendance and rising weight in global politics especially given indications that it is shedding its earlier status quo posture and shifting to a more assertive one As scholar Elizabeth Economy noted in a June 2018 speech PRC President Xi Jinping put the world on notice China has its own ideas about how the world should be run and is prepared as he put it to lead in the reform of global
