Da Yan Wild Goose Qigong The 2nd 64 Movements Volume 2:

Da Yan Wild Goose Qigong Simon Blow, 2014-09-01 Da Yan Wild Goose Qigong The 2nd 64 movements From ancient times Qigong was developed as a way of helping improve people's quality of life. It's an important component of the Chinese medical health systems. The art of Qigong consists primarily of meditation, relaxation, physical movement, mind-body integration, and breathing exercises. When the mind and body come into a state of balance, stress is reduced and there is an increase in health and longevity. The 2nd 64 Da Yan Wild Goose Qigong movement set deals primarily with the pre-natal body and refers to the energy we gather from the universe and from our ancestors before birth. Having dredged the channels in the 1st 64 movement set, the 2nd 64 movement set is designed to clear the channels to absorb fresh Qi, expel stale Qi, and to restore organ balance. The twisting, stretching, bending, and pressing movements produce stronger Qi fields and intensify the circulation through the energy channels. In the 2nd 64 movement set, the goose is embarking on a great journey and flies out from this world to the edge of the Milky Way to pick the herbs or gather the pre-natal Qi from the core of the universe. It then flies back to this world to share this healing energy with humanity. Simon Blow is a 29th Generation of the Da Yan Wild Goose Qigong, an initiated student of the 28th lineage holder, Grand Master Chen Chuan Gang, the eldest son of Grand Master Yang Mei Jung. He is a master teacher, Laoshi, and is the author of numerous books, DVDs, and meditation CDs about the ancient Chinese healing arts. Simon has been initiated into Dragon Gate Daoism and given the name Xin Si, meaning Genuine Wisdom, and is also a Standing Council member of the World Academic Society of Medical Qigong, Beijing, China. This is the teaching textbook on Wild Goose Qigong in accordance with the original principles of the ancient masters, accurate instructions for all the movements, genuine meaning and interpretation of the understanding of all the key principles. Grand Master Chen Chuan Gang Qigong makes me feel centered and balanced. I find I am calmer and more able to be the mindful person I wish to be. Annie Qigong makes me feel calm, focused, happy, and healthy. I have experienced improved health both physically and mentally. Jann

Wild Goose Qigong Michael Tse, 2005 **Da Yan Wild Goose Qigong** Simon Blow, 2017-06 Da Yan translates to great bird and is an ancient cultivation practice originating from the Jin Dynasty about 1700 years ago. Daoist Masters from the sacred Kunlun Mountains in the Northern Himalayan area in south west China would observe the migrating geese which descended in this area each year. They would mimic the movements of these great birds and started to develop the Da Yan Wild Goose Qigong system. The 1st 64 movement set deals primarily with the post-natal body relating to the energy that one gathers after birth. The movements representing the flight of wild geese are slow, graceful movements and strong, quick movements designed to release stale Qi and to gather fresh Qi, helping to restore balance and stimulate the entire energy system of the body.

Wild Goose Qigong - An Internal Art David Deich, 2021-02-14 Wild Goose Dayan Qigong is one of the premier healing systems in China with its origins in the 4th century CE. It is one of the oldest documented systems including both meditation and movement forms as well as healing and martial applications. Wild Goose is an Internal Art. This means that the energy generation methods used for healing martial and even basic movement are radically different than what most people are used to in an exercise program. Internal energy supercharges the Wild Goose applications. This volume contains the principles that make the internal arts work. It provides everything from philosophy to the practice methods guiding you step by step as you are introduced to the Wild Goose system. As a branch of Classical Chinese Medicine, qigong provides a practical method of relieving stress and balancing your body's energy systems to improve your health. If you are a seeker, this art should resonate with you. This volume supersedes the previous Wild Goose books by David Deich and Shane Lear.

The understanding of Qi and the development of Qi cultivation practices or what we call Qigong has a long and proud history in China. This body of knowledge has grown since ancient times from the indigenous people of China evolving to become an art and science and generating the foundation for other Daoist traditions. Healing arts that have originated from the Daoist tradition include Acupuncture, Acupressure, Massage, Chinese Herbal Medicine, Feng Shui, Qigong, and Taijiquan. Da Yan translates to great bird and is an ancient cultivation practice originating from the Jin Dynasty about 1700 years ago. Daoist Masters from the sacred Kunlun Mountains in the Northern Himalayan area in south west China would observe the migrating geese which descended in the area each year. They would mimic the movements of these great birds and started developing the Da Yan Wild Goose Qigong system. Its healing and spiritual legacy was passed down through many generations; however, Da Yan Qigong was withheld from the general public until 1978. Then 27th lineage holder Grand Master Yang Mei Jung 1895-2002 decided to teach this ancient Qigong practice and share its healing benefits to improve the quality of life of all people. The Rainy Day Practise is a simplified form to practise indoor during rainy days or when we can't go outside and can be practised in a confined space approx 1.5m x 1.5m. The theory and healing benefits are based on the interpretation of the original 1st 64 movement set.
