De Lange Weg Naar Vrijheid Rusland En De Glasnost:

Dissident for Life Koenraad De Wolf, 2013-02-07 This gripping book tells the largely unknown story of longtime Russian dissident Alexander Ogorodnikov from Communist youth to religious dissident in the Gulag and back again Ogorodnikov's courage has touched people from every walk of life including world leaders such as Bill Clinton Ronald Reagan and Margaret Thatcher In the 1970s Ogorodnikov performed a feat without precedent in the Soviet Union he organized thousands of Protestant Orthodox and Catholic Christians in an underground group called the Christian Seminar When the KGB gave him the option to leave the Soviet Union rather than face the Gulag he firmly declined because he wanted to change his Russia from the inside out His willingness to sacrifice himself and be imprisoned meant leaving behind his wife and newborn child Ogorodnikov spent nine years in the Gulag barely surviving the horrors he encountered there Despite KGB harassment and persecution after his release he refused to compromise his convictions and went on to found the first free school in the Soviet Union the first soup kitchen and the first private shelter for orphans among other accomplishments Today this man continues to carry on his struggle against government detainments and atrocities often alone Readers will be amazed and inspired by Koenraad De Wolf's authoritative account of Ogorodnikov's life and work

Soviet Historiography of Philosophy Evert van der Zweerde, 2013-06-29 Scientific history of philosophy was one of the professional branches of Soviet philosophy and a place where philosophical culture was preserved in an often hostile environment Situated between the ideological exigencies of the Soviet system with its Marxist Leninist theoretical foundation and the need for an objective account of philosophy's past Soviet history of philosophy displays the characteristic features of Soviet philosophy as a whole including a forceful reappearance of its Hegelian background This book is the only Western monograph on this important part of Soviet philosophy thus filling the last main gap in Western Philosophical Sovietology At the same time it offers the first survey of Soviet philosophy after the disappearance of the Soviet system itself embarking on an historical and meta philosophical investigation of Soviet philosophical culture The book will be of interest to students of Soviet and Russian philosophy historians of philosophy and specialists in Soviet studies
