Sirks, Conway Zirkle, 1964 **A Classified Bibliography of the History of Dutch Medicine 1900-1974** G.A. Lindeboom, 2012-12-06 I In some periods of the past Netherlands medicine has played a major role in the evolution of European medicine today its history still enjoys much interest even at the other side of the Ocean In this bibliography it has been my endeavour to compile references for all that has been written on the history of Dutch medicine in our country and elsewhere in our age The main concern of this work is with the medicine of the Northern Netherlands However before the end of the sixteenth century the Northern and Southern Netherlands were not yet divided into two separate countries they were still politically one and for the greater part spoke the same Flemish language So before their separation the present day Belgium and Netherlands also had a common medical history Therefore many entries have been included which bear on early and sometimes later Flemish medicine but it has not been the intention to strive for completeness in this respect
