

JOHN MUELLER & MARK G. STEWART

CHASING GHOSTS

THE POLICING OF TERRORISM

Chasing Ghosts Terrorism John Mueller

Marc Sageman

Chasing Ghosts Terrorism John Mueller:

Chasing Ghosts John E. Mueller, Mark G. Stewart, 2016 *Chasing Ghosts* exposes the ill founded paranoia that has allowed the national security state to both feed at the public trough and undermine America's civil liberties tradition **Debating Terrorism and Counterterrorism** Stuart Gottlieb, 2025-04-15 This innovative text now in its third edition focuses students on engaging and informative debates on the most crucial issues in the field of terrorism and counterterrorism Leading scholars practitioners and think tank experts provide original essays that juxtapose pro and con arguments on hotly contested topics of clear importance to the understanding of the past present and future of terrorism and counterterrorism These include disagreements over the evolving nature of terrorist organizations whether terrorism is ever justified the role of poverty as a root cause of terrorism whether militant jihadism or far right extremism poses the greater terror threat the likelihood of nuclear terrorism whether military or non military solutions should lead counterterrorism efforts the utility of international organizations in helping to combat terrorism and whether trade offs with civil liberties are necessary to protect national security in an age of mass casualty terrorism The book's editor frames all twelve debate chapters six each for terrorism and counterterrorism with incisive headnotes providing historical context and highlighting the critical stakes involved for each topic By the book's end readers will have a sophisticated grasp of the terrorism challenges conundrums and counter options being considered and contested in academic departments and policy circles in the United States and around the world *Countering Terrorism* Martha Crenshaw, Gary LaFree, 2017-01-03 Can We Construct a Grand Strategy to Counter Terrorism Fifteen years after September 11 the United States still faces terror threats both domestic and foreign After years of wars ever more intensive and pervasive surveillance enhanced security measures at major transportation centers and many attempts to explain who we are fighting and why and how to fight them the threats continue to multiply So too do our attempts to understand just what terrorism is and how to counter it Two leaders in the field of terrorism studies Martha Crenshaw and Gary LaFree provide a critical look at how we have dealt with the terror threat over the years They make clear why it is so difficult to create policy to counter terrorism The foes are multiple and often amorphous the study of the field dogged by disagreement on basic definitional and methodological issues and the creation of policy hobbled by an exacting standard the counterterrorist must succeed all the time the terrorist only once As *Countering Terrorism* shows there are no simple solutions to this threat **Parameters**, 2017 War or Peace Deepak Lal, 2018-05-22 Today's international climate is one of disorder A League of Dictators China Russia Iran is threatening the superpower status of the United States of America and the liberal international order it has underwritten A piecemeal Third World War seems to have begun Eminent economist Deepak Lal argues that the global financial crisis was the proximate cause for a revanchist China and Russia believing that the liberal economic order promoted by the US was on its deathbed and their illiberal systems were the future But Lal argues that reports of the economic woes of the US are greatly exaggerated as are those of China's prospects

and Russia's power With a new regime and the US continuing overwhelming economic and military strength it can maintain its global hegemony by challenging the League of Dictators India is increasingly a partner in this effort to maintain a liberal global order by helping contain China's burgeoning influence

The Cambridge History of Terrorism Richard

English, 2021-05-20 The Cambridge History of Terrorism provides a comprehensive reference work on terrorism from a distinctly historical perspective offering systematic analyses of key themes problems and case studies from terrorism's long past Featuring expert scholars from across the globe this volume examines the phenomenon of terrorism through regional case studies largely written by local scholars as well as through thematic essays exploring the relationship between terrorism and other historical forces Each of the chapters whether thematic or case study focused embodies new research based analysis which will help to inform and reshape our understanding of one of the world's most challenging problems

The Canada-US Border in the 21st Century John B. Sutcliffe, William P. Anderson, 2018-11-02 Borders are critical to the development and survival of modern states offer security against external threats and mark public policy and identity difference At the same time borders and borderlands are places where people ideas and economic goods meet and intermingle The United States Canada border demonstrates all of the characteristics of modern borders and epitomises the debates that surround them This book examines the development of the US Canada border provides a detailed analysis of its current operation and concludes with an evaluation of the border's future The central objective is to examine how the border functions in practice presenting a series of case studies on its operation This book will be of interest to scholars of North American integration and border studies and to policy practitioners who will be particularly interested in the case studies and what they say about the impact of border reform

War and Chance Jeffrey A. Friedman, 2019-04-01 Uncertainty surrounds every major decision in international politics Yet there is almost always room for reasonable people to disagree about what that uncertainty entails No one can reliably predict the outbreak of armed conflict forecast economic recessions anticipate terrorist attacks or estimate the countless other risks that shape foreign policy choices Many scholars and practitioners therefore believe that it is better to keep foreign policy debates focused on the facts that it is at best a waste of time to debate uncertain judgments that will often prove to be wrong In War and Chance Jeffrey A Friedman shows how foreign policy officials often try to avoid the challenge of assessing uncertainty and argues that this behavior undermines high stakes decision making Drawing on an innovative combination of historical and experimental evidence he explains how foreign policy analysts can assess uncertainty in a manner that is theoretically coherent empirically meaningful politically defensible practically useful and sometimes logically necessary for making sound choices Each of these claims contradicts widespread skepticism about the value of probabilistic reasoning in international politics and shows how placing greater emphasis on assessing uncertainty can improve nearly any foreign policy debate A clear eyed examination of the logic psychology and politics of assessing uncertainty War and Chance provides scholars and practitioners with new foundations

for understanding one of the most controversial elements of foreign policy discourse **Cold Peace** Michael W. Doyle, 2023-04-25 An urgent examination of the world barreling toward a new Cold War By 1990 the first Cold War was ending The Berlin Wall had fallen and the Warsaw Pact was crumbling following Russia's lead cries for democracy were being embraced by a young Chinese populace The post Cold War years were a time of immense hope and possibility They heralded an opportunity for creative cooperation among nations an end to ideological strife perhaps even the beginning of a stable international order of liberal peace But the days of optimism are over As renowned international relations expert Michael Doyle makes hauntingly clear we now face the devastating specter of a new Cold War this time orbiting the trilateral axes of Russia the United States and China and exacerbated by new weapons of cyber warfare and more insidious forms of propaganda Such a conflict at this phase in our global history would have catastrophic repercussions Doyle argues stymieing global collaboration efforts that are key to reversing climate change preventing the next pandemic and securing nuclear nonproliferation The recent devastating invasion of Ukraine is both an example and an augur of the costs that lay in wait However there is hope Putin is not Stalin Xi is not Mao and no autocrat is a modern Hitler There is also an unprecedented level of shared global interest in prosperity and protecting the planet from environmental disaster While it is unlikely that the United States Russia and China will ever establish a warm peace there are significant reasonable compromises between nations that can lead to a détente While the future remains very much in doubt the elegant set of accords and non subversion pacts Doyle proposes in this book may very well save the world **Misunderstanding Terrorism** Marc Sageman, 2017 Misunderstanding Terrorism provides a striking reassessment of the scope and nature of the global neo jihadi threat to the West The post 9 11 decade experienced the emergence of new forms of political violence and new terrorist actors More recently Marc Sageman's understanding of how and why people have adopted fundamentalist ideologies and terrorist methods has evolved Author of the classic Understanding Terror Networks Sageman has become only more critical of the U S government's approach to the problem He argues that U S society has been transformed for the worse by an extreme overreaction to a limited threat limited he insists despite spectacular recent incidents which he takes fully into account Indeed his discussion of just how limited the threat is marks a major contribution to the discussion and debate over the best way to a measured and much more effective response

If you ally dependence such a referred **Chasing Ghosts Terrorism John Mueller** book that will meet the expense of you worth, get the entirely best seller from us currently from several preferred authors. If you want to comical books, lots of novels, tale, jokes, and more fictions collections are also launched, from best seller to one of the most current released.

You may not be perplexed to enjoy every books collections Chasing Ghosts Terrorism John Mueller that we will utterly offer. It is not in this area the costs. Its nearly what you dependence currently. This Chasing Ghosts Terrorism John Mueller, as one of the most working sellers here will totally be in the midst of the best options to review.
