Controlling Immigration Controlling Immigration:

Controlling Immigration James F. Hollifield, Philip L. Martin, Pia M. Orrenius, François Héran, 2022-09-27 The fourth edition of this classic work provides a systematic comparative assessment of the efforts of major immigrant receiving countries and the European Union to manage migration paying particular attention to the dilemmas of immigration control and immigrant integration Retaining its comprehensive coverage of nations built by immigrants the so called settler societies of the United States Canada Australia and New Zealand the new edition explores how former imperial powers France Britain and the Netherlands struggle to cope with the legacies of colonialism how social democracies like Germany and the Scandinavian countries balance the costs and benefits of migration while maintaining strong welfare states and how more recent countries of immigration in Southern Europe Italy Spain and Greece cope with new found diversity and the pressures of border control in a highly integrated European Union The fourth edition offers up to date analysis of the comparative politics of immigration and citizenship the rise of reactive populism and a new nativism and the challenge of managing migration and mobility in an age of pandemic exploring how countries cope with a surge in asylum seeking and the struggle to integrate large and culturally diverse foreign populations

Why Control Immigration? Caress Schenk, 2018-01-01 Using a multi method ethnographic approach Why Control Immigration argues that the scarcity of legal labour and the ensuing growth of illegal immigration can act as a patronage resource for bureaucratic and regional elites in Russia

Controlling Immigration James Hollifield, Philip L. Martin, Pia Orrenius, 2014-07-30 The third edition of this major work provides a systematic comparative assessment of the efforts of a selection of major countries including the U S to deal with immigration and immigrant issues paying particular attention to the ever widening gap between their migration policy goals and outcomes Retaining its comprehensive coverage of nations built by immigrants and those with a more recent history of immigration the new edition pays particular attention to the tensions created by post colonial immigration and explores how countries have attempted to control the entry and employment of legal and illegal Third World immigrants how they cope with the social and economic integration of these new waves of immigrants and how they deal with forced migration

Intertwining Criminal Justice and Immigration Control in the EU Niovi Vavoula, Evangelia (Lilian) Tsourdi, Valsamis Mitsilegas, 2025-09-09 This book offers a contemporary understanding of the state of the art of crimmigration with a focus on the European Union and challenges this paradigm of intersecting criminal justice and immigration control The contributions to this book explore the conceptual and philosophical underpinnings of EU and national policies intertwining criminal and migration law as well as their practical use and abuse They analyse migration control through criminal law from multidisciplinary and interdisciplinary perspectives incorporating insights from law philosophy and criminology The book revisits fundamental questions on the suitability of criminal law to regulate and govern migration and provides insights as to whether and how the law should be amended to limit the negative consequences of the

criminalisation of migration The authors critique the key legal challenges crimmigration poses in terms of legality fundamental rights and rule of law adherence Finally this volume outlines through concrete examples how criminalisation of migration translates into the emergence of hostile environments for migrants and those who assist them This book will be of interest to criminologists sociologists legal scholars and all those engaged in studies on migration and the European Union

Controlling a New Migration World Virginie Guiraudon, Christian Joppke, 2003-09-02 Controlling a New Migration World explores the factors that drive recent migration control policies and in turn sheds light on the unintended consequences of policies for the new character of migration This book asks how we can account for the immigration policies of liberal states Is the recent linkage between migration and security a rhetorical invention of elites or a reflection of changing migrant profiles Are states control policies effectively containing or only redirecting unwanted migration flows This increasingly relevant issue will be of great use to anyone working in comparative politics sociology and studying ethnicity or international migration as well as professionals working in the migrant asylum and public law fields Opening and Closing

the Doors Frank D. Bean, Georges Vernez, Charles B. Keely, 1989 **Canadian Liberalism and the Politics of Border Control, 1867-1967** Christopher G. Anderson, 2012-11-10 With restrictive immigration policies increased interdiction and the detention of asylum seekers it is clear that Canada's approach to border control has shifted in recent years Yet such practices are just the latest in a long and complex national history Canadian Liberalism and the Politics of Border Control sheds light on the first century of Canada's efforts to control its borders framing pivotal moments within a long standing but often overlooked debate over the rights of non citizens Anderson provides valuable insights into contemporary liberal democratic control by demonstrating that today's more restrictive approach reflects traditions deeply embedded within liberal democracies Migrant Homelessness and the Crimmigration Control System Regina Serpa, 2023-05-08 Migrant

Homelessness and the Crimmigration Control System offers new insights into the drivers of homelessness following migration by unpacking the housing consequences of crimmigration control systems in the US and the UK The book advances housing sacrifice as a concept to understand journeys in and out of homelessness and the coping strategies migrants employ Undergirded by persuasive empirical research it offers a compelling case for a social citizenship right to housing guaranteed across social political and civil realms of society The book is structured around the 30 life stories of people who have migrated to the capital cities of Boston and Edinburgh from Central America and Eastern Europe The narratives are complemented by interviews with a range of stakeholders including frontline caseworkers activists and policymakers Guided by the tenets of critical realist theory this book offers a biographical inquiry into the intersections of race class and gender and provides insight into the everyday precarity homeless migrants face by listening to them directly It will be of interest to students scholars and policymakers across a range of fields including housing immigration criminology sociology and human geography Modes of Migration Regulation and Control in Europe Jeroen Doomernik, Michael Jandl, 2025-10-01 In Europe

immigration is a politically burning issue especially when it comes to the arrival of asylum seekers and illegal labour migrants Governments want to keep them under control in order to limit their numbers Yet traditionally there were strong differences between European states in the extent to which they sought to do so and the instruments employed to that end Currently the contours become visible of a common approach towards notably irregular migration This becomes clear from the country studies comprising this volume *States of Ignorance* Christina Boswell, 2023-11 Much attention has been focused on how states produce knowledge about the people they govern far less has been written about those aspects of society that states choose to keep obscure This book makes an original contribution to understanding state ignorance by focusing on one of the most complex and contested social issues of our day the governance of irregular migrants Tracing the evolution of state monitoring and control of irregular migrants from the 1960s to the present day across France Germany and the United Kingdom the authors develop a theory of state ignorance setting out three complementary ways of understanding such oversights ignorance as omission ignorance as strategy and ignorance as ascription The findings upend dominant approaches which tend to assume that states are preoccupied with producing knowledge about their populations and argues that states have actually been keen to sustain ignorance about their unauthorised populations
