China Station The British Military In The Middle Kingdom 1839 1997:

China Station Mark Felton, 2020-12-19 The Author who lives in Shanghai sets out to demonstrate that the British military has been at the forefront of many of the great changes that have swept China over the last two centuries He devotes chapters to the various wars military adventures and rebellions that regularly punctuated Sino British relationships since the 1st Opium War 1839 1842 This classic example of Imperial intervention saw the establishment of Hong Kong and Shanghai as key trading centres The Second Opium War and the Taiping and Boxer Rebellions saw the advancement of British influence despite determined but unsuccessful efforts by the Chinese to loosen the grip of Western domination The Royal Navys might ensured that by gunboat diplomacy trading rights and new posts were established and great fortunes made But in the 1940s the British grossly underestimated Japanese military might and intentions with disastrous results After the Second World War the British returned to find that the Americans had supplanted them The Communists victory in the Civil War sealed British and Western fates and while Hong Kong remained under British control until 1997 the end of British rule was almost inevitable But the handover was a masterly piece of pragmatic capitalism and the former Colony remains an economic powerhouse with strong British influence

capitalism and the former Colony remains an economic powerhouse with strong British influence *Gunboats, Empire and the China Station* Matthew Heaslip, 2020-10-01 Examining Britain s imperial outposts in 1920s East Asia this book explores the changes and challenges affecting the Royal Navy s third largest fleet the China Station as its crews fought to hold back the changing tides of fortune Bridging the gap between high level naval strategy and everyday imperial culture Heaslip highlights the importance of the China Station to the British imperial system foreign policy and East Asian geopolitics while also revealing the lived experiences of these imperial outposts Following their immersion into a new world and the challenges they encountered along the way it considers how its naval officers were perceived by the Chinese populations of

the ports they visited how the two communities interacted and what this meant at a time of peace Against the changing nature of Britain's informal empire in the 1920s *Gunboats Empire* and the *China Station* highlights the complex nature of naval operations in between major conflicts and calls into question how peaceful this peacetime truly was *The British Navy in Eastern Waters* John D. Grainger, 2022 Provides a comprehensive overview of the activities of the British navy in the Indian and Pacific Oceans from the earliest times to the present This book outlines the early voyages of the English East India Company its building of its own naval forces and its conflicts with Indian states It examines the opening up of the Pacific Ocean the wars with the French in the eighteenth and early nineteenth centuries and the activities of the British navy in the later nineteenth century both off the coasts of China and Japan and also in the many other places to which the navy's very great power extended It goes on to consider the wars of the twentieth century Britain's withdrawal from east of Suez and Britain's continuing relative decline Throughout the book provides accounts of battles and other actions and relates the activities of the British navy to the wider political situation and to the activities of other European and Asian navies *A Century of Humiliation 1839-1949* Andrew Hyde, 2024-10-15 An exploration of international relations at a time when Western powers exploited Eastern resources and sought to dominate the economic and political landscape A powerful insight into the history that helped shape current political and economic realities ***The Lion and the Dragon*** Mark Simner, 2019-06-29 During the middle of the 19th Century Britain and China would twice go to war over trade and in particular the trade in opium The Chinese people had progressively become addicted to the narcotic a habit that British merchants were more than happy to feed from their opium poppy fields in India When the Qing dynasty rulers of China attempted to suppress this trade due to the serious social and economic problems it caused the British Government responded with gunboat diplomacy and conflict soon ensued The first conflict known as the First Anglo Chinese War or Opium War 1839-42 ended in British victory and the Treaty of Nanking However this treaty was heavily biased in favour of the British and it would not be long before there was a renewal of hostilities taking the form of what became known as the Second Anglo Chinese War or Arrow War 1857-60 Again the second conflict would end with an unequal treaty that was heavily biased towards the victor *The Lion and the Dragon* Britain's Opium Wars with China 1839-1860 examines the causes and ensuing military history of these tragic conflicts as well as their bitter legacies *Pacific Gateways: Trans-Oceanic Narratives and Anglophone Literature, 1780-1914* Tomoe Kumojima, Laurence Williams, 2024-12-28 Who is the Proust of the Paphuans Saul Bellow famously inquired as if this vast expanse were too small scattered and backward to deserve consideration In response to this challenge *Pacific Gateways* seeks to define a new if provisional canon This diverse insightful and compelling collection applies ethnographic perspectives contact zone participant testimony indigeneity to a diverse range of genres romance travelogue memoir to demonstrate how the Pacific already prefigures and generates later networks of global exchange It offers not retrospect into a distant past but intimations of possible futures as a portal into alternative forms of planetary consciousness

Steve Clark This book explores the entanglements of Anglophone literature with Pacific geographies histories and cultures during the long nineteenth century giving a transpacific context to Victorian writers including Dickens Kingston Stevenson and Trollope and setting them alongside Pacific Rim writers such as Bret Harte Lafcadio Hearn Joseph Heco and Yei Theodora Ozaki The chapters focus upon the physical and imaginative gateways produced by Western technology including the port city the steamship telegraph lines and the networks of international trade and finance These Pacific gateways shape the development of a transpacific consciousness in Anglophone literature whose modes of exchange and patterns of thought can still be seen in modern day attitudes to the region The book aims to present a polyglot and cross cultural history of Anglophone literature in the Pacific in which Anglo American imperialism coexists with established intra Asian networks Chapter 1 is available open access under a Creative Commons Attribution 4 0 International License via link.springer.com

A Life of Sir Harry Parkes Robert Morton, 2025-10-01 Harry Parkes was at the heart of Britain's relations with the Far East from the start of his working life at fourteen to his death at fifty seven Orphaned at the age of five he went to China on his own as a child and worked his way to the top God fearing and fearless he believed his mission was to bring trade and civilisation to East Asia In his day he was seen as both a hero and a monster and is still bitterly resented in China for his part in the country's humiliations at Western hands but largely esteemed in Japan for helping it to industrialise Morton's new biography the first in over thirty years and benefiting in part from access to the Parkes family and archives offers a more intimate and informed profile of the personal and professional life of a Victorian titan and one of Britain's most undiplomatic diplomats in the history of the British Civil Service

China's New Navy Xiaobing Li, 2023-10-15 Winner of the 2023 Chinese Historians in the United States Book Award A survey of Chinese naval operational history Li's book focuses on the major battles and important engagements of more than 1 200 Chinese naval operations from 1949 2009 including the joint landing campaigns in the Taiwan Strait Crises naval battles in the South China Sea air defense against American pilots during Operation Rolling Thunder and anti piracy operations in Africa His findings elucidate the origin of and changes of the People's Liberation Army Navy PLAN by examining its adaptation modernization and setbacks in the past sixty years Based upon newly available Chinese sources and personal interviews with retired generals admirals and PLA officers the work offers Chinese perspective on the study of PLAN war fighting history The untold operational stories of the Chinese captains boatswains sailors gunners and naval pilots provide a first hand look at a naval officer and his crew during the Cold War and beyond They also indicate important lessons learned by the naval leaders who faced the enemies during a period when the PLAN underwent a complex transformation China's New Navy explains how the Chinese Navy's operational experience brought about its reform The PLAN changed from a coastal defensive fleet in the 1950s to a modern navy in the 2000s It concludes that some early experiences are still relevant to Beijing's leaders as they consider specific strategic and operational challenges Li redefines and adapts such strategic Cold War concepts as nuclear deterrence and local warfare to

be meaningful in today's strategic context one in which PLAN is ready to open fire first in a defensive offense against the other sea powers like the U S Navy

The Coal Black Sea Stuart Heaver, 2022-06-23 On the morning of 22 September 1914 just six weeks into the First World War three Royal Navy armoured cruisers were sunk by a German U boat in the southern North Sea The action lasted less than 90 minutes but the lives of 1 459 men and boys were lost more than the British losses at the Battle of Trafalgar or in the sinking of RMS Lusitania Yet curiously few have ever heard of the incident *The Coal Black Sea* tells the extraordinary true story of the disaster from the perspectives of the men serving on HMS Aboukir Hogue and Cressy and the German submariners who orchestrated the attack It also examines how the ignominious loss provoked widespread criticism of the highly ambitious First Lord of the Admiralty the 39 year old Winston Churchill While the families of the victims grieved Churchill succeeded in playing down the significance of the disaster and shifted the blame to those serving at sea to save his faltering career Using a range of official and archival records Stuart Heaver exposes this false narrative and corrects over a century of misinformation to honour those who lost their lives in the worst naval catastrophe of the First World War
