Chimpanzee Politics Frans B. M. Waal, 2000-04-10 The first edition of Frans de Waal's *Chimpanzee Politics* was acclaimed not only by primatologists for its scientific achievement but also by a much broader audience of politicians, business leaders and social psychologists for its remarkable insights into very basic human needs and behaviors. In this revised edition featuring a new gallery of color photographs along with a new introduction and epilogue, de Waal expands and updates his story of the Arnhem colony and its continuing political upheavals. We learn the fate of many memorable chimpanzees and meet the colony's current leaders and their allies. The new edition remains a detailed and thoroughly engrossing account of sexual rivalries and coalitions of actions governed by intelligence rather than instinct, and it reaffirms the complex bond between humans and their closest living relatives. As we watch the chimpanzees of Arnhem behave in ways we recognize from Machiavelli, and from the nightly news, de Waal reminds us again that the roots of politics are older than humanity.

Chimpanzee Politics Frans B. M. Waal, 1989 **Chimpanzee Politics** Frans B. M. Waal, 1984 **The Psychology of Political Behavior in a Time of Change** Jan D. Sinnott, Joan S. Rabin, 2020-10-23 This volume seeks to add a unique perspective on the complex relationship between psychology and politics, focusing on three analytical points of view: 1. psychology, politics, and complex thought; 2. bio-psycho-social factors of masculinity and power; and 3. underlying factors in political behavior. Contributors examine recent political events worldwide through a psychological lens, using interdisciplinary approaches to seek a deeper understanding of contemporary political ideas, psychologies, and behaviors. Finally, the book offers suggestions for surviving and thriving during rapid political change. Among the topics discussed: Biopsychological factors of political beliefs and behaviors; Understanding political polarization through a cognitive lens; Impact of psychological processes on voter decision making; Motivations for believing in conspiracy theories; Nonverbal cues in leadership; Authoritarian responses to social change. *The Psychology of Political Behavior in a Time of Change* is a timely and insightful volume for students and researchers in psychology, political science, gender studies, business, and marketing, and sociology, as well as those working in applied settings: practitioners, government workers, NGOs, corporate organizations.

Suicide of the West Jonah Goldberg, 2020-01-14 NEW YORK TIMES BESTSELLER An urgent argument that America and other democracies are in peril because they have lost the will to defend the values and institutions that sustain freedom and prosperity. Now updated with a new preface. Epic and debate shifting. David Brooks, New York Times. Only once in the last 250,000 years have humans stumbled upon a way to lift ourselves out of the endless cycle of poverty, hunger, and war that defines most of history. If democracy, individualism, and the free market were humankind's destiny, they should have appeared and taken hold a bit earlier in the evolutionary record. The emergence of freedom and prosperity was nothing short of a miracle. As Americans, we are doubly blessed because the radical ideas that made the miracle possible were written not just into the Constitution but in our hearts, laying the groundwork for our uniquely prosperous society. Those ideas are: Our rights come

from God not from the government The government belongs to us we do not belong to it The individual is sovereign We are all captains of our own souls not bound by the circumstances of our birth The fruits of our labors belong to us In the last few decades these political virtues have been turned into vices As we are increasingly taught to view our traditions as a system of oppression exploitation and privilege the principles of liberty and the rule of law are under attack from left and right For the West to survive we must renew our sense of gratitude for what our civilization has given us and rediscover the ideals and habits of the heart that led us out of the bloody muck of the past or back to the muck we will go

Ethics in a Time of Barbarism Carl P. Ellerman, 2025-08-19 During a time of widespread intraspecific aggression and barbaric captivity throughout the planet this study of the ethics of survival asks the burning question At the extremes of experience when captives are struggling to survive is there a line at which the moral judgment of survival behavior ceases Stated differently Are there times in the lives of humans when the valiant attempt to maintain moral scruples clashes with the way the world is moments when moral pretension moral aspiration and the expectation of moral agency are absurd Putting the burning question under strain Carl P Ellerman offers testimony from the confessional publications of survivors who were subjected to life threatening barbaric experiences He also critically scrutinizes the competing ethical perspectives of Hume Kant Nietzsche and the U S Department of Defense Military Code of Conduct to show how the ethics of survival has been handled philosophically and militarily Empirical evidence from Evolutionary Biology Primatology and the Neurosciences is interwoven to advance a biological realism in the ethics of survival Readers are also invited to undertake an honest self examination using active imagination to answer unsparing questions as if each reader were wearing the shoes of a captive who abjures the fictions of an ideal self

A nyugat öngyilkossága Jami Attenberg, Jonah Goldberg, 2019-11-28 Az elmúlt 250 ezer év során mindössze egyszer botlottunk olyan eszmébe, mely kiemelt bennünket a történelemtől: az elmúlt száz év alatt Angliában amikorra letlenlítették a liberális demokratikus kapitalizmus csodáját. Az akkor igen radikálisnak számított elképzelésük szerint a társadalomunk alapját képezik a kormányok, nem pedig mi, a kormányok. Az egyenlőség szuverén. Mindannyian a saját lelkiismeretünk urai vagyunk. A munkánk gyümölcse bennünket illet. A nyugati világ sosem látott virágzó társadalmat ezeknek az eszméknek köszönhetően. Az elmúlt száz év történelmében bennünket kezdte károsítani ezen politikai irányokat. Egyre inkább belátható, hogy hagyományainkra győtek tekintni, mint az elnyomás a kizsákmányolás a féltés kivétel nélkül. A rendszerre a szabadság elveit a jogállamiság a jobb-s-baloldali viszonyok egyaránt, sőt az alattlányok. Jonah Goldberg az Egyesült Államok egyik legnevesebb konzervatív gondolkodója a politikai, történelmi, popkultúra és a közgazdasági társadalomtudományok jellemző egyedi kombinációját nyújt. A leplezi le a Nyugat gyilkos hajlamait az ideológiáit, a századok mindkét oldalán. Ahhoz, hogy a Nyugat letlenlített maradhasson, jól kell reznünk civilizációnk történelméről, jól kell fedeznünk azokat az eszméket, melyek a múltban kivezettek bennünket a vesztő mocsorba. Így lesz a sorsunk. Az öngyilkosság egyszer a szabadságért viszont meg kell dolgozni.
