China On The Margins Cornell East Asia Series:

China on the Margins Sherman Cochran, Paul G. Pickowicz, 2011-03-31 Should modern Chinese history be approached from the center looking out or from the margins looking in The contributors to this book have explored a variety of relationships between the center or centers and the margins in China under the Qing dynasty the Republic and the People's Republic

China's Borderlands under the Qing, 1644-1912 Daniel McMahon, 2020-12-30 This book explores new directions in the study of China's borderlands In addition to assessing the influential perspectives of other historians it engages innovative approaches in the author's own research These studies probe regional accommodations the intersections of borderland management martial fortification and imperial culture as well as the role of governmental discourse in defining and preserving restive boundary regions As the issue of China's management of its borderlands grows more pressing the work presents key information and insights into how that nation's contested fringes have been governed in the past

The Republic of China Xavier Paules, 2023-11-08 The declaration of the Republic of China in 1912 signalled an entirely new era Not only did the revolution of 1911-12 bring about the fall of the Qing dynasty it also brought an end to the entire series of dynasties that had marked Chinese history for over two millennia Radical reforms since 1901 had culminated in the ending of the political status quo and the rejection of the very idea of empire Drawing on the most recent historical research Xavier Paul's provides a comprehensive account of the crucial but chaotic period that stretched from the founding of the Republic of China in 1912 to the civil war of 1945-9 which ended with the victory of the Chinese Communist Party CCP and the establishment of the People's Republic of China Paul's challenges various common claims about this period It is often assumed that the CCP was instrumental in bringing about key events by skilfully mobilizing the population to serve its ends Paul's argues by contrast that the CCP took advantage of fortunate circumstances and that even then it was only in a position to challenge the supremacy of the Guomindang as late as 1944 His analysis takes a broad view by considering the importance of political actors both within and external to the revolutionary movement enabling him to offer a balanced interpretation of the republican period which sheds new light on China's political cultural and economic development

The Making of the Human Sciences in China Howard Chiang, 2019-05-07 This volume provides a history of how the human has been constituted as a subject of scientific inquiry in China from the seventeenth century to the present Organized around four themes Parameters of Human Life Formations of the Human Subject Disciplining Knowledge and Deciphering Health it scrutinizes the development of scientific knowledge and technical interest in human organization within an evolving Chinese society Spanning the Ming Qing Republican and contemporary periods its twenty-four original synthetic chapters ground the mutual construction of China and the human in concrete historical contexts As a state of the field survey a definitive textbook for teaching and an authoritative reference that guides future research this book pushes Sinology comparative cultural studies and the history of science in new directions

Empire at the Margins Pamela Kyle Crossley, Helen F. Siu, Donald S.

Sutton,2006-01-19 Focusing on the Ming 1368 1644 and especially the Qing 1364 1912 eras this book analyzes crucial moments in the formation of cultural regional and religious identities The contributors examine the role of the state in a variety of environments on China s peripheries paying attention to shifts in law trade social stratification and cultural dialogue They find that local communities were critical participants in the shaping of their own identities and consciousness as well as the character and behavior of the state At certain times the state was institutionally definitive but it could also be symbolic and contingent They demonstrate how the imperial discourse is many faceted rather than a monolithic agent of cultural assimilation

Visualising China, 1845-1965 Christian Henriot,Wen-hsin Yeh,2012-11-09 In Visualizing China the authors launch a broad inquiry aimed at a synergistic understanding of the story of visuality in modern China The essays cluster around several nodal points including photographs advertising posters and movies from the 1840s to the 1960s

Land of Strangers Eric Schluessel,2020-10-20 At the close of the nineteenth century near the end of the Qing empire Confucian revivalists from central China gained control of the Muslim majority region of Xinjiang or East Turkestan There they undertook a program to transform Turkic speaking Muslims into Chinese speaking Confucians seeking to bind this population and their homeland to the Chinese cultural and political realm Instead of assimilation divisions between communities only deepened resulting in a profound estrangement that continues to this day In Land of Strangers Eric Schluessel explores this encounter between Chinese power and a Muslim society through the struggles of ordinary people in the oasis of Turpan He follows the stories of families divided by war women desperate to survive children unsure where they belong and many others to reveal the human consequences of a bloody conflict and the more insidious violence of reconstruction Schluessel traces the emergence of new struggles around essential questions of identity showing how religious and linguistic differences converged into ethnic labels Reading across local archives and manuscript accounts in the Chinese and Chaghatay languages he recasts the attempted transformation of Xinjiang as a distinctly Chinese form of colonialism At a time when understanding the roots of the modern relationship between Uyghurs and China has taken on new urgency Land of Strangers illuminates a crucial moment of social and cultural change in this dark period of Xinjiang s past

between the English Shakespearean literary heritage and the dynasties old Chinese literary tradition inherited by Cao Xueqin. The Introduction sets out the potential for the significant cultural exchange between these two great literary works each an inexhaustible inspiration of artistic and scholarly re interpretation. Two chapters bring into consideration two universal literary themes patriarchy filial obedience and family honour and tragic romantic love. These chapters are structured so that a key episode in Hamlet provides the initial perspective which is then carried through to an episode in The Story of the Stone which offers points of complementarity in depth interpretation. draws on inter textual historical and contemporary contexts referenced from the immense body of scholarly research which has accumulated around these iconic works. The third chapter proposes a new reading of the problematic shrew character in the novel Wang Xi feng through tracing the similarities of the structure of the narration of her life and death with a Shakespearean five act tragedy.
