Real-World Evidence of Natural Products, Herbal Medicines, and Traditional Chinese Medicine Treatments Liyun He, Yi Guo, Xuezhong Zhou, Yiming Li, Yi Wang, 2024-07-25

The concept of real world studies RWS has emerged in recent years and differs from randomized controlled trials RCTs in design and implementation The importance of real world data RWD and real world evidence RWE in the context of medical and health decision making is rising This is relevant for the many and diverse medical traditions globally RWS can bring new ideas and methodologies for clinical efficacy and safety evaluation of different specific preparations used in a Traditional Medicine TM and allow a high quality assessment of the evidence for specific uses of such preparations TM including Traditional Chinese medicine TCM Traditional European Medicine TEM or Traditional Indian Medicines TIM as well as interventions using herbal medicines or natural products such as dietary fibre are all examples of practices which can benefit from RWS For example TCM is a unique form of medical practice based on a complex philosophy as well as on real world clinical experience and evidence

RWE is essential for understanding the evidence one can derive from the outcomes of medical practice It is of particular interest for understanding TCM diagnosis and treatment In addition there is potential for real world traditional medical therapies based on other cultural and philosophical principles natural products or herbal medicines Currently RWS is mostly utilized for evaluation the clinical efficacy of Traditional medicine TM treatments including post marketing re evaluation of new medications or traditional classical prescriptions as well as TM related mechanistic research

Metabolomics and metabolism of traditional chinese medicine, volume II Xijun Wang,Haitao Lu,2023-01-18

Agarwood Rozi Mohamed,2016-06-01 This book gives readers new information to understand the mechanism of agarwood induction and therefore eradicate the myths surrounding agarwood formation One of the challenges in conserving agarwood resources is species identification In this book taxonomy and systematics of agarwood producing trees from historical and recent perspectives is discussed and tips are given for identifying cultivated species In addition color illustrations are given to highlight vegetative and reproductive characteristics as well as anatomical features for identification purposes of both plant and agarwood sources Another challenge that planters are facing is in acquiring the correct method for agarwood induction thus development of agarwood induction technologies will be reviewed A chapter dedicated to bioinduction is included The book will comprise a chapter on the use of non destructive technology as a management tool for cultivating agarwood The book also discusses issues relating to agarwood grades The absence of an international standard that is acceptable by producer and consumer countries further complicates the issue Other useful information includes a systematic revelation of agarwood constituents and their complex chemistry and highlights on a specific pharmaceutical property

Pharmacological Effects of Traditional Chinese Medicine on Cardiovascular Disease Jianxun Liu,Guanhua Du,Xiu-Wei Yang,2021-12-03 Cardiovascular diseases include ischemic and hemorrhagic diseases involving the heart brain whole body tissue and includes coronary heart disease heart failure arrhythmia atherosclerosis and stroke This particular group of diseases continue to be a leading cause of death throughout the world with mortality rate remaining high Currently drugs administered orally and intravenously and surgical treatments are used to treat such diseases Traditional Chinese medicine TCM refers to natural herbal medicines and their processed products used for preventing and treating disease under the guidance of traditional Chinese medicine s theory The implementation of prevention and treatment programs of ischemic cardiovascular diseases with the use of TCM have been associated with positive outcomes in terms of a reduction in the disability and mortality rate of some patients Other studies have also shown that specific multi component TCM preparations have therapeutic benefits based on multi target and multi pathway mechanisms which may have advantages over the current single component and single target therapy Based these characteristics approved pharmaceutical drugs based in TCM such as Compound Danshen Dripping Pills Naoxintong Capsules Tonxinluo Capsules and Danhong Injection are currently used to treat cardiovascular diseases However there are a number of areas that still need further investigation For example the

identification of effective components in herbal medicine is essential in furthering our understanding of what occurs at a pharmacological level the metabolizing pharmacological pathways of such components the cellular target of the components and the lack of standardized guidelines to enhance clinical research

Market Access of Traditional Chinese Medicinal Product in the EU under WTO Legal Framework Saisai Wang, 2020-08-30 This book presents an in depth analysis of issues in trade law and EU pharmaceutical law concerning market access for traditional Chinese medicinal products It discusses these issues from the standpoints of fundamental law international law and EU law so to offer a comprehensive perspective Specifically it points out the core legislative issues for EU policymakers who deal with market access for traditional medicinal products describes the relation between law and science and offers essential information on herbal medicinal product registration in the EU Further it compares EU law and Chinese law in this regard which can offer inspirations for readers from other counties that have similar medicinal products The book uses straightforward accessible language to break down the key issues involved

Evidence and Rational Based Research on Chinese Drugs Hildebert Wagner, Gudrun Ulrich-Merzenich, 2013-02-11 After the successful introduction of acupuncture to the West recent advances in analytical methods in chemistry molecular biology and systems biology especially the development of the omic technologies have again brought Chinese drugs into the focus of research on Traditional Chinese Medicine TCM With more than 1000 publications on the chemistry molecular biology and pharmacology of TCM drugs in international journals over the last 10 years Chinese drugs are gaining increasingly reputation and impact These data offer great opportunities for the development of new pharmaceuticals for various clinical applications International scientists have compiled relevant and trend setting research results in this book Topics range from the latest methods of quality and safety assurance by chemical and genetic fingerprints to the development of new pharmaceuticals for a future evidence based therapy e g for cancer cardiovascular inflammatory or infectious diseases as well as to recent experimental results on multitarget and synergy research for the preparation of multi extract pharmaceuticals from TCM

Lignans David Barker, 2019-05-03 Lignans are a class of natural products found mainly in plants They have a wide variety of structures and exhibit a range of potent biological activities Lignans are also well known components of a number of widely eaten foods and are frequently studied for their dietary impact Owing to these factors lignans have been extensively studied by scientists from a large number of disciplines This collection of research and review articles describes topics ranging in scope from the recent isolation and structural elucidation of new lignans strategies towards the chemical synthesis of lignans assessment of their biological activities and potential for further therapeutic development Research showing the impact of lignans in the food and agricultural industries is also presented
