Chinese Herbal Medicine Materia Medica:

A Materia Medica for Chinese Medicine E-Book Carl-Herman Hempen, 2009-04-28 Phytotherapy or herbal medicine is the most important therapy within Chinese medicine and is being used increasingly in the West. A Materia Medica for Chinese Medicine plants, minerals and animal products describes 400 of the most important plants, minerals and animal substances used as treatments by Chinese medical practitioners. The items included have been selected according to their degree of clinical relevance. Each remedy is clearly described and illustrated on two facing pages, making this an easily accessible reference for both students and practitioners of Chinese herbal medicine. The clearly laid out text presents the following details for each herb or substance: included a detailed description of the characteristic features, indications for safe use, medicinal and toxic effects, possible combinations with other substances, full colour illustrations, generally two for each substance, showing the detailed characteristics of the item described. A Materia Medica for Chinese Medicine has been written by two medically trained doctors who have worked as TCM therapists specializing in the use of Chinese herbs for more than 30 years. Based on their many years of teaching and practice, the book has been carefully compiled and designed to provide a concise and accurate practice-based reference for both students and practitioners. **Chinese Materia Medica**
