Historical Research Of Chinese Folk Songs Shulu Chen, 2023-12-04 This book advances the study of Chinese folk songs through theoretical innovation in literature based folk songs and methodological innovation in multidisciplinary cross interaction It describes the historical development of folk songs makes an in depth study of the intersection and integration of folk songs with other literature and art as well as the relationship with merchants folk customs and regional culture and analyses the literature of folk songs in previous dynasties It is not only significant for the preservation of cultural heritage but also to the promotion of folk song research and related fields This book is applicable to scholars and researchers who have in depth research on Chinese folk songs Russia and China Michal Lubina, 2017-10-23 This book depicts the sophisticated relationship between Russia and China as a pragmatic one a political marriage of convenience Yet at the same time the relationship is stable and will remain so After all bilateral relations are usually based on pragmatic interests and the pursuit of these interests is the very essence of foreign policy And as often happens in life the most long lasting marriages are those based on convenience The highly complex complicated ambiguous and yet indeed successful relationship between Russia and China throughout the past 25 years is difficult to grasp theoretically Russian and Chinese elites are hard core realists in their foreign policies and the neorealist school in international relations seems to be the most adequate one to research Sino Russian relations Realistically throughout this period China achieved a multidimensional advantage over Russia Yet simultaneously Russia China relations do not follow the patterns of power politics Beijing knows its limits and does not go into extremes Rather China successfully seeks to build a longterm stable relationship based on Chinese terms where both sides gain albeit China gains a little more Russia in this agenda does not necessary lose just gains a little less out of this asymmetric deal Thus a new model of bilateral relations emerges which may be called by paraphrasing the slogan of Chinese diplomacy as asymmetric win win formula This model is a kind of back to the past a contemporary equivalent of the

first model of Russia China relations the *modus vivendi* from the 17th century achieved after the Nerchinsk treaty
