

Ways to keep warm during the winter months

One. Make use of warm clothing

Wrap yourself in a blanket or shawl when you are sitting down. You can even pop your feet up on something as the air is cooler on ground level.

Two. Wear Warm clothes

If you struggle to stay warm in bed, try wearing warm clothes and, if it's particularly cold, thermal underwear and bed socks – even a hat can really help you keep warm.

Three. Hot water bottles all round!

Use a hot water bottle, heat bag or an electric blanket to warm the bed – but never use a hot water bottle and an electric blanket together.

Four. Keep your window closed

Keep your bedroom window closed at night when the weather is at its coldest. Breathing in cold air lowers body temperature and raises the risk of chest infections, heart attacks and strokes.

Five. Layer Up!

Several thin layers of clothing will keep you warmer than one thick layer, as the layers trap warm air between them. Start with thermal underwear, warm tights or woollen socks.
