Technical Books & Monographs

Sponsored by the U.S. Atomic Energy Commission U.S. Atomic Energy Commission, **A Bibliographic Guide to the History of Computer Applications, 1950-1990** James W. Cortada, 1996-01-19 Covering over 40 industries and dozens of applications this is the first bibliography on the history of computer applications After an introductory essay on the history of applications the volume is divided into two time periods and includes over 1 600 entries arranged by application and industry

Users will find sections on such fields as higher education manufacturing law enforcement accounting space travel ATMs artificial intelligence banking and trucking Entries are annotated to describe their content and when appropriate their historical significance Compiled by a historian for other historians and economists the bibliography draws on the entire spectrum of contemporary and historical literature books user s guides trade journals industry publications technology and scholarly magazines and journals and newsletters including both American and European sources As the author of several books on information processing and a member of the IBM Corporation Cortada is in a good position to pick the historically significant literature for inclusion in this bibliography

Computer Applications to Library

Kole Lambert, A library computer system is the software used to catalog track circulation where appropriate and inventory a library s assets It is intended for home church private enterprise and other small to medium sized collections Larger libraries typically use an integrated library system to manage the more complex activities such as acquisitions interlibrary loan and licensing online resources With distributed software the customer can choose to self install or to have the system installed by the vendor on their own hardware The customer can be responsible for the operation and maintenance of the application and the data or the customer can choose to be supported by the vendor with an annual maintenance contract Some vendors charge for upgrades to the software Customers who subscribe to a web hosted service upload data to the vendors remote server through the Internet and may pay a periodic fee to access their data Modern libraries are constituted within and by a tradition of techniques and practices that represent a hundred years of codified professional knowledge This book provides a historical overview of this tradition that created a complex environment of expectation and misunderstanding for introducing

library automation This book attempts to delineate and discuss the applications of the computer that have been behind the technological revolution of library science The aim of the book is to mainly enhance the readers understanding of the ways in which computers have heralded the invasion of technology into library science with special attention to the emergence of digital libraries which promise to make libraries and their information completely at the mercy of our fingertips
