The Politics of Naming the Armenian Genocide

Vartan Matiossian, 2021-09-23 This book explores the genealogy of the concept of Medz Yeghern Great Crime the Armenian term for the mass murder and ethnic cleansing of the Armenian ethno religious group in the Ottoman Empire between the years 1915-1923 Widely accepted by historians as one of the classical cases of genocide in the 20th century ascribing the right definition to the crime has been a source of contention and controversy in international politics Vartan Matiossian here draws upon extensive research based on Armenian sources neglected in much of the current historiography as well as other European languages in order to trace the development of the concepts pertaining to mass killing and genocide of Armenians from the ancient to the modern periods Beginning with an analysis of the term itself he shows how the politics of its use evolved as Armenians struggled for international recognition of the crime after 1945 in the face of Turkish protest Taking a combined historical philological literary and political perspective the book is an insightful exploration of the politics of naming a catastrophic historical event and the competitive nature of national collective memories

California State

Publications California State Library, 1988 Ottawology Tonya K. Davidson, 2025-10-30T00:00:00Z Ottawa is often understood only as the seat of the federal government marked by the neo Gothic parliament buildings on the hill and the many government office buildings Lively erudite and exciting Ottawology offers a unique and radical approach to studying the city injecting it with intrigue and verve and expanding collective narrow understandings of Canada's capital city Tonya Davidson takes readers on a wide ranging journey through a city populated not only by power brokers but also workers students seniors trees eels turtles skaters and rabble rousers Davidson applies her prodigious sociological imagination to critically explore an essential but little understood city Davidson's Ottawa offers a fascinating template for how to scrutinize the interactions between the weight of history and the effervescent motion of everyday life in a city She draws surprising connections from the role of the civil service to the acceleration of suburban sprawl and the one time incredible success of

the city's bus rapid transit system to stories of nightlife, policing, play, libraries, rivers, and malls. Davidson traverses the city's streets and hidden histories to show how social structures, sustainability, and social life intersect, creating an elegant chronicle of the city's rich and fraught social life.
