Celtic Mysteries In New England:

Celtic Mysteries in New England Philip J. Imbrogno, Marianne Horrigan, 2000 Are you ready to solve a mystery One that disproves accepted archeology and history Then you need to get Celtic Mysteries in New England by Philip Imbrogno and Marianne Horrigan You see there are over sixty five mysterious small buildings throughout New England Archeologists dismiss them as root cellars from colonial times But if they are just root cellars why are there no records of them being made by the colonists Why is it that in one record a colonist who found one already made and on his property was told by a priest to avoid it Why is it that many are aligned to certain stars that are associated with the ancient Druids Why do some have intricate carvings on the walls In order to answer these and many more questions the authors start on a journey of discovery and take you along on a wild ride that threatens to shake the very foundations of history You will go along with them as they discover factual evidence of European explorers visiting the Americas nearly 1 000 years before Columbus You will learn how the Druids came over and built these constructions as part of their religion In Europe such constructions are known to appear along lines of energy and power So are these You will discover how they are frequently the center for the appearance of odd lights and UFOs Scientific evidence shows them to be centered on weird magnetic field anomalies If you are ready to discover the Celtic past of the Americas you need to get this book It will also intrigue and thrill archeologists paranormalists and people who just want to know the truth
