Carl Mitcham, David Munoz

Development And Humanitarianism Practical Issues Development In Practice:

Development and Humanitarianism Deborah Eade, Tony Vaux, 2007 Humanitarian intervention invariably rubs shoulders with politics albeit awkwardly and sometimes even with tragic results Tensions between them take many forms ranging from different assessments of the extent or even the existence of a crisis to claims that humanitarian assistance is not saving innocent lives but sustaining politico military forces or to the conclusion that the constraints upon them compel aid agencies to withdraw from the area of operation completely whether to ensure the safety of their own staff or because they believe that their integrity is unacceptably compromised by staying Development and Humanitarianism addresses these and other dilemmas that aid agencies face in interpreting the principles of humanitarianism in contexts where they risk being manipulated by political agendas The contributors have extensive experience as frontline aid workers agency policy makers academics and researchers and professional consultants around the world Like every book in the Development in Practice Readers series Development and Humanitarianism draws on the contents of the acclaimed international journal Development in Practice and includes an annotated resource list of recent publications relevant journals organizations and websites presenting a cutting edge guide to thinking and action Other Contributors Gretchen Alther Andrew Bonwick Julia Buckmaster Udan Fernando Dorothea Hilhorst Jonathan Makuwira Vanessa Pupavac Volker Schimmel Astri Suhrke Frank James Tester Martha Thompson and Suzanne Williams

Handbook on Humanitarianism and Inequality Silke Roth, Bandana Purkayastha, Tobias Denskus, 2024-02-12 This prescient Handbook examines how legacies of colonialism gender class and other markers of inequality intersect with contemporary humanitarianism at multiple levels

Conflict Sensitivity in Development, Humanitarian & Peacebuilding Practice Susanne Schmeidl, Anthony Ware, Claudio Alberti, 2025-03-28 Inspired by Mary Anderson's influential work Do No Harm 1999 this book encourages critical reflection on the development and contemporary relevance of conflict sensitivity approaches in international development humanitarian action and peacebuilding Despite the widespread acceptance of conflict sensitivity particularly in the context of worsening crises there has been a surprising lack of critical discussion and evaluation of the framework and its application This book fills this gap by bringing together a diverse collection of articles practice notes and reflections from academics and practitioners in the field of conflict sensitivity It provides a comprehensive platform for valuable debate highlighting strengths areas for improvement and practical guidance for real world application based on 25 years of conflict sensitivity do no harm practice and innovation By integrating insights from practitioners the book aims to bridge the gap between theory and practice Advocating the systematic integration of conflict sensitivity into humanitarian development and peacebuilding efforts the book offers practical guidance for implementation and adaptation in different contexts and programmes As a valuable resource it deepens understanding and promotes accountability to the populations that humanitarian development and peacebuilding actors seek to support including actors advancing conflict sensitivity in their own contexts It serves as a

springboard for further academic research on conflict sensitivity This book was originally published as a special issue of *Development in Practice* *Achieving Education for All through Public-Private Partnerships?* Pauline Rose,2013-09-13 Concern for achieving Millennium Development Goals MDGs by 2015 has led to a focus on the role that non state providers NSPs can offer in extending access and improving quality of basic services While NSPs can help to fill a gap in provision to those excluded from state provision recent growth in both for profit and not for profit providers in developing countries has sometimes resulted in fragmentation of service delivery To address this attention is increasingly given in the education sector to developing partnerships between governments and NSPs Partnerships are further driven by the expectation that the state has the moral social and legal responsibility for overall education service delivery and so should play a role in facilitating and regulating NSPs Even where the ultimate aim of both non state providers and the state is to provide education of acceptable quality to all children this book provides evidence from diverse contexts across Africa South Asia and Latin America to highlight the challenges in them partnering to achieve this This book was published as a special issue of *Development in Practice* *Participatory Research and Gender Analysis* Nina Lilja,John Dixon,Deborah Eade,2013-09-13 Agricultural development research aims to generate new knowledge or to retrieve and apply existing forms of knowledge in ways that can be used to improve the welfare of people who are living in poverty or are otherwise excluded for instance by gender based discrimination Its effective application therefore requires ongoing dialogue with and the strong engagement of men and women from poor marginal farming communities This book discusses opportunities afforded by effective knowledge pathways linking researchers and farmers underpinned by participatory research and gender analysis It sets out practices and debates in gender sensitive participatory research and technology development concentrating on the empirical issues of implementation impact assessment and institutionalisation of approaches for the wider development and research community It includes six full length chapters and eight brief practical notes and is enhanced by an annotated resources list of relevant publications organisations and websites adding to the portfolio of approaches and tools discussed by the contributors Most of the 33 contributing authors work in the specialised agencies that form part of the Consultative Group on International Agricultural Research CGIAR This book was published as a special issue of *Development in Practice* *Global Food-Price Shocks and Poor People* Marc J. Cohen,Melinda Smale,2014-06-11 This book examines the effects of high and volatile food prices during 2007 08 on low income farmers and consumers in developing transition and industrialized countries Previous studies of this crisis have mostly used models to estimate the likely impacts This volume includes actual evidence from the field as to how higher prices affected access to food and farm income among poor people In addition to country and regional case studies the book presents discussions of cross cutting themes including gender risk management violence the importance of subsistence farming as a coping strategy and the role of governments and markets in addressing higher prices With 2011 witnessing an unprecedentedly high level of food prices the findings and policy recommendations presented here

should prove useful to both scholars and policy makers in understanding the causes and consequences as well as the policies needed to ensure food security in light of the skyrocketing cost of food This book was published as a special double issue of Development in Practice

Management of International Institutions and NGOs Eduardo Missoni,Daniele Alesani,2023-08-31 This second edition of Management of International Institutions and NGOs covers all key topics in global governance from a unique management perspective It analyzes the management challenges associated with international cooperation rather than the more commonly explored political or economic lenses This text is structured to enable students to connect theory with practice beginning with the main management frameworks developed in the context of corporate and national public nonprofit organizations and adapting them to the specificity of international institutions and international non governmental organizations This leads to the identification of a tailored approach to international organization management based on their institutional and operational settings stakeholder groups core business staff profiles and financial arrangements The authors then connect this theory with practice by linking frameworks to several case studies and best practices of organizations currently experimenting with management systems and tools with case studies including the World Bank and the Gates Foundation This edition has been extensively revised and updated with an expanded conceptual framework inclusive of systemic theories of organization new cases throughout and new chapters on leadership supply chain and operations and human centered digitization This comprehensive textbook is a must own resource for students and academics involved with studying and working with international organizations

Humanitarianism and Challenges of Cooperation Volker Heins,Kai Koddenbrock,Christine Unrau,2016-02-05 Humanitarianism as a moral concept and an organized practice has become a major factor in world society It channels an enormous amount of resources and serves as an argument for different kinds of interference into the internal affairs of countries and regions At the same time and for these very reasons it is an ideal testing ground for successful and unsuccessful cooperation across borders Humanitarianism and the Challenges of Cooperation examines the multiple humanitarianisms of today as a testing ground for new ways of global cooperation General trends in the contemporary transformation of humanitarianism are studied and individual cases of how humanitarian actors cooperate with others on the ground are investigated This book offers a highly innovative empirically informed account of global humanitarianism from the point of view of cooperation research in which internationally renowned contributors analyse broad trends and present case studies based on meticulous fieldwork This book will be of great interest to students and researchers in the areas of political science international relations and humanitarianism It is also a valuable resource for humanitarian aid workers

Humanitarian Engineering Carl Mitcham,David Munoz,2022-05-31 Humanitarian Engineering reviews the development of engineering as a distinct profession and of the humanitarian movement as a special socio political practice Having noted that the two developments were situated in the same geographical and historical space that is in Europe and North America beginning in the 1700s the book argues for a mutual

influence and synthesis that has previously been lacking In this spirit the first of two central chapters describes humanitarian engineering as the artful drawing on science to direct the resources of nature with active compassion to meet the basic needs of all especially the powerless poor or otherwise marginalized A second central chapter then considers strategies for education in humanitarian engineering so conceived Two final chapters consider challenges and implications Table of Contents Engineering Humanitarianism Humanitarian Engineering Humanitarian Engineering Education Challenges Conclusion Humanizing Technology **International Disaster Management Ethics** Liza Ireni Saban, 2016-09-30 Today's international disaster management community faces demanding political and ethical challenges In International Disaster Management Ethics Liza Ireni Saban suggests that it is crucial for international aid organizations engaged in disaster management to attempt to lift the moral fog that envelops their practice and to alert them to the ethical implications and meaning of their decisions and actions commitment to exercising ethical judgment and leadership Drawing on examples from large scale natural disasters the 2003 Bam earthquake in Iran the 2004 Indian Ocean earthquake and tsunami the 2005 hurricanes that struck the US Gulf Coast the 2010 Haitian earthquake and the 2013 Philippines typhoon Saban applies current prominent perspectives on global justice to international disaster management arguing that a process of codification will enhance the capacity to professionalize distributive decision making Rather than being obligatory taking into account global distributive considerations will become a defining part of the profession at a global level at a time when international disaster relief is facing more and more severe natural disasters

Development And Humanitarianism Practical Issues Development In Practice Book Review: Unveiling the Power of Words

In a global driven by information and connectivity, the power of words has be much more evident than ever. They have the ability to inspire, provoke, and ignite change.
