Calculating and Reporting Healthcare Statistics Loretta A. Horton, 2007 **Calculating and Reporting Healthcare Statistics** Loretta A. Horton, 2016 **World Health Statistics 2018** World Health Organization, 2018-06-28

The World Health Statistics series is WHO's annual compilation of health statistics for its 194 member states. World Health Statistics 2018 focuses on the health and health-related Sustainable Development Goals (SDGs) and associated targets by bringing together data on a wide range of health-related SDG indicators. It also links to the three SDG-aligned strategic priorities of the WHO's 13th General Programme of Work 2019-2023. World Health Statistics 2018 is organized into three parts. First, in order to improve understanding and interpretation of the data presented, Part 1 outlines the different types of data used and provides an overview of their compilation, processing, and analysis. The resulting statistics are then publicized by WHO through its flagship products such as the World Health Statistics series. In Part 2, summaries are provided of the current status of selected health-related SDG indicators at global and regional levels based on data available as of early 2018. In Part 3, each of these three strategic priorities of achieving universal health coverage (UHC), addressing health emergencies, and promoting healthier populations are illustrated through the use of highlight stories. In Annexes A and B, country-level statistics are presented for selected health-related SDG indicators. Annex B presents statistics at WHO regional and global levels.

Financial and Business Management for the Doctor of Nursing Practice, Second Edition KT Waxman, 2017-12-28. First Edition Awarded Second Place in 2013 AJN Book of the Year Awards. The second edition of this award-winning text, designed specifically for the DNP course in health care economics and finance, remains the only book to embed economic and financial concepts in the context of nursing practice and nursing health care systems. Well organized and clearly written, the second edition is updated to encompass key changes to reimbursement and health care regulations and provides revised statistics throughout. It offers new information on ambulatory care cost and ratio analysis, additional examples of financial statements, and an updated sample business plan. Enhanced teaching strategies include real-life case studies, challenging critical thinking questions, learning games, key words in each chapter, and an extensive glossary. New PowerPoint slides add to the text's value as a robust teaching tool. Written by experienced DNP executives for DNPs, the book emphasizes critical skills nurse leaders need to participate in strategic health care planning. It delivers a practical approach to business, finance, economics, and health policy that is designed to foster sound business and leadership. The text clearly explicates the relationship between cost of care, quality of care, and ethics and examines the economic and financial implications of evidence-based practice and quality. Also included is a special section on finance for independent practitioners. Additionally, the book delivers required competencies of the AACN Essentials and the AONE. New to the Second Edition: Updated statistics throughout; New information on ambulatory care; A cost and ratio analysis; Additional examples of financial statements; Updated business plan; Enhanced faculty support; PowerPoint slides.
