

The left side of the book cover features two stylized Egyptian deities against a light gray grid background. The top deity is orange and has a head with a large, rounded, bulbous shape and a small tail-like appendage. The bottom deity is yellow and has a head with a more complex, multi-tiered structure. Both deities are depicted in a walking pose, holding a long staff or scepter in their right hand.

Conceptions Of God In Ancient Egypt:

Conceptions of God in Ancient Egypt Erik Hornung, 1982 An excellent historical overview of the gods It is a recommended necessary reading for those studying Ancient Egyptian religion Frankie s Reviews in Egyptology A work of extraordinary distinction Hornung s book will appeal to anyone interested in ancient Egypt in ancient religion and in the history of religion as well as students and scholars of ancient history anthropology and archaeology Osiris Horus Isis Thoth Anubis the many strange and compelling figures of the Egyptian gods and goddesses seem to possess endless fascination The renowned Egyptologist Erik Hornung here studies the ancient Egyptians conceptions of god basing his account on a thorough reappraisal of the primary sources His book now available in English for the first time is the most extensive exploration yet undertaken of the nature of Egyptian religion Hornung examines the characteristics spheres of action and significance of Egyptian gods and goddesses analyzing the complex and changing iconography used to represent them and disentangling the many seemingly contradictory aspects of the religion of which they are a part He seeks to answer two basic questions How did the Egyptians themselves see their gods Did they believe there was an impersonal anonymous force behind the multiplicity of their deities Throughout he attempts to evoke the complexity and richness of the religion of the ancient Egyptians and of their worldview which differs so greatly from our own Sensitively translated by John Baines and with a new preface by the author this edition has been amplified and updated with an English language audience in mind **Religion in Ancient Egypt** John Baines, Leonard H. Lesko, David P. Silverman, 1991 Lectures given at a symposium held in 1987 sponsored by Fordham University The Origins of Biblical Monotheism Mark S. Smith, 2003-11-06 One of the leading scholars of ancient West Semitic religion discusses polytheism vs monotheism by covering the fluidity of those categories in the ancient Near East He argues that Israel s social history is key to the development of monotheism *Conceptions of Justice from Earliest History to Islam* Abbas Mirakhor, Hossein Askari, 2019-04-17 This book examines the conceptions of justice from Zarathustra to Islam The text explores the conceptions of justice by Zarathustra Ancient Egypt India Mesopotamia Noah Abraham and Moses During the Axial Age 800 200 BCE the focus of justice is in India China and Greece In the post Axial age the focus is on Christianity The authors then turn to Islam where justice is conceived as a system which emerges if the Qur anic rules are followed This work concludes with the views of early Muslim thinkers and on how these societies deteriorated after the death of the Prophet The monograph is ideal for those interested in the conception of justice through the ages Islamic studies political Islam and issues of peace and justice **The Concept of God: A Construct of Human Thought** KHRITISH SWARGIARY, 2024-09-01 In *The Concept of God A Construct of Human Thought* I Khritish Swargiary argue that the belief in God is not an inherent truth of the universe but a man made construct born out of fear uncertainty and the need for control This book challenges the assumption that belief in a higher power is necessary for ethical living and instead posits that human beings are capable of constructing moral systems without the need for divine

oversight *Concept of God Demystified* M.K MS,2025-07-14 What if God isn't a myth to believe in but a discovery waiting to happen *Concept of God Demystified* peels back the layers of faith logic and science to ask one of humanity's oldest questions in the language of the digital age Written by a technologist turned seeker this book doesn't tell you what to believe it hands you the tools to decide Is there a higher intelligence behind the universe 1 Or is it all just chaos 0 **God's Wife, God's Servant** Mariam F. Ayad,2009-06-02 Drawing on textual iconographic and archaeological evidence this book highlights a historically documented but often ignored instance where five single women were elevated to a position of supreme religious authority The women were Libyan and Nubian royal princesses who consecutively held the title of God's Wife of Amun during the Egyptian Twenty third to Twenty sixth dynasties c 754 525 BCE At a time of weakened royal authority rulers turned to their daughters to establish and further their authority Unmarried the princess would be dispatched from her father's distant political **The Search for God in Ancient Egypt** Jan Assmann,2001 What for the ancient Egyptians was the nature of the world's governing spirits With the evidence of ancient texts Assmann considers Egyptian theology and cults and rites This deep analytic book is of the greatest interest not only for specialists in matters Egyptian but also for comparative studies Antiquity First English language edition with revisions and additions by the author This classic work by one of the world's most distinguished Egyptologists was first published in German in 1984 *The Search for God in Ancient Egypt* offers a distillation of Jan Assmann's views on ancient Egyptian religion with special emphasis on theology and piety Deeply rooted in the texts of ancient Egypt and thoroughly informed by comparative religion theology anthropology and semiotic analysis Assmann's interpretations reveal the complexity of Egyptian thought in a new way Assmann takes special care to distinguish between the implicit theology of Egyptian polytheism and the explicit theology that is concerned with exploring the problem of the divine His discussion of polytheism and mythology addresses aspects of ritual the universe and myth his consideration of explicit theology deals with theodicy and the specifics of Amarna religion *The Tekenu and Ancient Egyptian Funerary Ritual* Glennise West,2019-07-31 Attested from the Fifth Dynasty until and including the Saite Period the Tekenu is a puzzling icon depicted within funerary scenes in the tombs of some ancient Egyptian nobles In this work four distinct types of Tekenu are identified and classified and then a Corpus Catalogue is formed *The Routledge Companion to Theism* Charles Taliaferro,Victoria S. Harrison,Stewart Goetz,2013 There are deep and pervasive disagreements today in universities and colleges and popular culture in general over the credibility and value of belief in God This has given rise to an urgent need for a balanced comprehensive accessible resource book that can inform the public and scholarly debate over theism While scholars with as diverse interests as Daniel Dennett Terry Eagleton Richard Dawkins Jürgen Habermas and Rowan Williams have recently contributed books to this debate theism as a concept remains poorly understood and requires a more thorough and systematic analysis than it has so far received in any single volume *The Routledge Companion to Theism* addresses this need by investigating theism's history as well as its relationship to inquiry in

the sciences social sciences and humanities and to its wider cultural contexts The contents are not confined within the philosophy of religion or even within the more expansive borders of philosophy Rather The Routledge Companion to Theism investigates its subject through the lens of a wide variety of disciplines and explores the ramifications of theism considered as a way of life as well as an intellectual conviction The five parts of the volume indicate its inclusive scope I What is Theism II Theism and Inquiry III Theism and the Socio Political Realm IV Theism and Culture V Theism as a Way of Life The result is a well ordered and thorough collection that should provide a wide spectrum of readers with a better understanding of a subject that is much discussed but frequently misunderstood As the editors note in their Introduction while stimulating and informing the contemporary debate a key aim of the volume is to open new avenues of inquiry into theism and thereby to encourage further research into this vital topic Comprised of 54 essays by leading scholars in philosophy history theology religious studies political science education and sociology The Routledge Companion to Theism promises to be the most useful comprehensive resource on an emerging subject of interest for students and scholars
