Cognitive Lexicography Carolin Ostermann,2015-07-31 English lexicography and linguistics have always shared close ties yet the

potential of cognitive linguistics for lexicography has only been hesitantly acknowledged in the literature This is what cognitive lexicography attempts to change by using insights gained in cognitive semantic research for the development of new dictionary features After a short survey of the history and practice of English monolingual learner lexicography as well as an outline of the relationship between linguistics and lexicography three new dictionary features are developed They cover three different cognitive semantic theories as well as three different parts of the monolingual dictionary entry each time for a new set of lexemes Frame semantics conceptual metaphor theory as well as cognitive conceptions of polysemy are used to create a new example section for agentive nouns a new defining structure for emotion terms and a new microstructural arrangement for particle entries Dictionary analyses on all as well as user studies on two of the features complement these suggestions The monograph thus presents a new approach to lexicography that incorporates into its description of lexical items how humans perceive and conceptualise language

A Survey of Modern English Stephan Gramley, Kurt-Michael Pätzold, 2004-02-24 Fully revised and updated the second edition of this authoritative guide is a comprehensive scholarly and systematic review of modern English In one volume the book presents a description of both the linguistic structure of present day English and its geographical social gender and ethnic variations Covering new developments such as the impact of email on language and corpus based grammars this accessible text has been extensively rewritten and brings the survey of modern English right up to date It also offers new examples and suggestions for further reading
