Federalism in Canada Thomas O. Hueglin, 2021 Federalism in Canada tells the turbulent story of shared sovereignty and divided governance from Confederation to the present time It does so with three main objectives in mind The first objective is to convince readers that federalism is the primary animating force in Canadian politics and that it is therefore worth engaging with its complex nature and dynamic The second objective is to bring into closer focus the contested concepts about the meaning and operation of federalism that all along have been at the root of the divide between English Canada and Quebec in particular The third objective is to give recognition to the trajectory of Canada's Indigenous peoples in the context of Canadian federalism from years of abusive neglect to belated efforts of inclusion The book focuses on the constitution with its ambiguous allocation of divided powers the pivotal role of the courts in balancing these powers and the political leaders whose interactions oscillate between intergovernmental conflict and cooperation This focus on executive leadership and judicial supervision is framed by considerations of Canada's regionalized political economy and cultural diversity giving students an interesting and nuanced view of federalism in Canada

Policy Transformation in Canada Carolyn Hughes Tuohy, Sophie Borwein, Peter John Loewen, Andrew Potter, 2019-01-01 Canada's centennial anniversary in 1967 coincided with a period of transformative public policymaking This period saw the establishment of the modern welfare state as well as significant growth in the area of cultural diversity including multiculturalism and bilingualism Meanwhile the rising commitment to the protection of individual and collective

rights was captured in the project of a just society Tracing the past present and future of Canadian policymaking Policy Transformation in Canada examines the country's current and most critical challenges the renewal of the federation managing diversity Canada's relations with Indigenous peoples the environment intergenerational equity global economic integration and Canada's role in the world Scrutinizing various public policy issues through the prism of Canada's sesquicentennial the contributors consider the transformation of policy and present an accessible portrait of how the Canadian view of policymaking has been reshaped and where it may be heading in the next fifty years Interactive Political Leadership Eva Sørensen, 2020-01-09 Building on recent theories of interactive governance and political leadership Interactive Political Leadership develops a concept of interactive political leadership and a theoretical framework for studying the role of elected politicians in the age of governance The purpose of the theoretical framework is to inspire and guide empirical research into how elected politicians perform political leadership in a society where citizens and other stakeholders play an active role in making and implementing political decisions and what barriers challenges and dilemmas they encounter in relation to the performance of interactive political leadership The research framework draws extensively on recent theories of interactive governance and political leadership and other new developments in political science and public administration research Moreover it finds inspiration in current tendencies and embryonic examples of interactive political leadership performed by elected politicians operating at different levels of governance in Western liberal democracies The basic assumption is that political legitimacy is essential for the survival of a political system and that interactive political leadership stands out as a promising way of securing what political scientists denote as input throughput output and outcome legitimacy in the age of governance Hence interactive political leadership aims to establish a bridge between representative democracy and emergent forms of political participation to promote political learning and accountability to strengthen the political entrepreneurship of elected politicians and to advance the political system's implementation capacity through resource mobilization The book develops 20 propositions that sets the agenda for a new and much needed field of empirical research into political leadership in the age of governance *Catalog of Copyright Entries.
