A Century of Expansion (Classic Reprint) Willis Fletcher Johnson, 2015-07-12 Excerpt from A Century of Expansion
The purport of the term expansion is sometimes carelessly misunderstood It is apparently supposed to apply to nothing but acquisition of territory and to that of recent date to wit our annexation of Porto Rico and the Philippines Such a conception is inadequate and misleading Expansion is no new thing and it is not measured by any geographical scale Its history begins with the history of the nation and both its causes and its effects are intimately intertwined with almost every fibre of our national being The expansion of the human body is a process of physical growth which is maintained incessantly so long as vitality is in the ascendant When growth ceases the man begins to die Moreover it involves something far more than increase of physical bulk and stature It is accompanied by a corresponding and indeed largely consequent development of the intellectual and spiritual nature We may not say that the mind and soul are always developed commensurately with the physical body About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Serialization, Commercialization and the Children's Classics Amy Webster, 2024-12-12
An exploration of the serialization of children's classics by contemporary publishers this book digs into the impact of the practice and provides new ways of reading the corpus of British children's literature from the 20th century Amy Webster demonstrates how publishers select texts for their series which texts they omit which outliers are sometimes included and how a core group of works from the golden age of children's literature emerged The text also examines how texts are abridged and transformed from publisher to publisher through close readings of *The Wind in the Willows* and *Alice's Adventures in Wonderland* and how the repackaging of works within a series highlight issues and choices tied to key paratextual elements Analysing data through distant reading and close reading of series from Ladybird Longman Puffin and Walker Illustrated editions this book sheds light on how modern classics series are marked by variation and instability but also a reductive homogeneity Through her use of quantitative and text focused research Webster reveals how commercial motivations have created a gulf between the canonical concepts of the classic and how the term functions as a marketing tool in British children's publishing With notions of what counts as a classic compromised and complicated this book leads the call for a critical approach towards both the term classic and to reading children's classics that acknowledges how they are tied to the commercial enterprises of the children's book business

The Secret of Progress (Classic Reprint) W. Cunningham,2016-10-16 Excerpt from The Secret of Progress Buckle¹ regarded it as clear that militarism and high intellectual development were not compatible till recently many people were prepared to believe that warfare was alien to the interest of civilised peoples and could only occur among half civilised or backward races But this war has shown that these hopes were vain and that the last result of civilisation was not to render war impossible but to give the means of carrying it out on a vastly extended scale The increase of knowledge and of power over nature and the sense of the benefits of intercourse and inter communication have not sufficed to give us any immunity from war About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Nineteenth-Century Transatlantic Reprinting and the Embodied Book Jessica DeSpain,2016-05-06 Until the Chace Act in 1891 no international copyright law existed between Britain and the United States which meant publishers were free to edit text excerpt whole passages add new illustrations and substantially redesign a book s appearance In spite of this ongoing process of transatlantic transformation of texts the metaphor of the book as a physical embodiment of its author persisted Jessica DeSpain s study of this period of textual instability examines how the physical book acted as a major form of cultural exchange between Britain and the United States that called attention to volatile texts and the identities they manifested Focusing on four influential works Charles Dickens s *American Notes for General Circulation* Susan Warner s *The Wide Wide World* Fanny Kemble s *Journal of a Residence on a Georgian Plantation* and Walt Whitman s *Democratic Vistas* DeSpain shows that for authors readers and publishers struggling with the unpredictability of the textual body the physical book and the physical body became interchangeable metaphors of flux At the same time discourses of destabilized bodies inflected issues essential to transatlantic culture including class gender religion and slavery while the practice of reprinting challenged the concepts of individual identity personal property and national identity

America Between the Civil War and the 20th Century

Britannica Educational Publishing,2012-06-01 The newly reunified United States experienced a tenuous peace following the American Civil War It was a period characterized by great technological advances but also by increased political economic and social polarization This penetrating look at American history between the Civil War and 20th century includes firsthand accounts that reveal the prevailing ideologies of the time and shed light on significant people and events **A Companion**

to Twelfth-Century Schools Cédric Giraud,2019-11-11 This Companion to Twelfth Century Schools provides a comprehensive update and new synthesis of the last three decades of research The fruit of a contemporary renewal of cultural history among international scholars of medieval studies this collection draws on the discovery of new texts the progress made in critical attribution the growing attention given to the conditions surrounding the oral and written dissemination of works the use of the notion of a community of learning the reinterpretation of the relations between the cloister and the urban school and links between institutional history and social history Contributors are Alexander Andr e Irene Caiazzo C dric Giraud Fr d ric Goubier Danielle Jacquart Thierry Kouam Constant J Mews Ken Pennington Dominique Poirel Ir ne Rosier Catach Sita Steckel Jacques Verger and Olga Weijers See inside the book *Apprehending the Criminal* Marie-Christine Leps,1992 In this wide ranging analysis Marie Christine Leps traces the production and circulation of knowledge about the criminal in nineteenth century discourse and shows how the delineation of deviance served to construct cultural norms She demonstrates how the apprehension of crime and criminals was an important factor in the establishment of such key institutions as national systems of education a cheap daily press and various welfare measures designed to fight the spread of criminality Leps focuses on three discursive practices the emergence of criminology the development of a mass produced press and the proliferation of crime fiction in both England and France Beginning where Foucault s work *Discipline and Punish* ends Leps analyzes intertextual modes of knowledge production and shows how the elaboration of hegemonic truths about the criminal is related to the exercise of power The scope of her investigation includes scientific treatises such as *Criminal Man* by Cesare Lombroso and *The English Convict* by Charles Goring reports on the Jack the Ripper murders in *The Times* and *Le Petit Parisien* the Sherlock Holmes stories Stevenson s *Strange Case of Dr Jekyll and Mr Hyde* and novels by Zola and Bourget **Book History** Ezra Greenspan,Jonathan Rose,2003-09-01 Book History is the annual journal of the Society for the History of Authorship Reading and Publishing Inc SHARP Book History is devoted to every aspect of the history of the book broadly defined as the history of the creation dissemination and the reception of script and print Book History publishes research on the social economic and cultural history of authorship editing printing the book arts publishing the book trade periodicals newspapers ephemera copyright censorship literary agents libraries literary criticism canon formation literacy literacy education reading habits and reader response **A Cultural History of Tragedy in the Age of**

Empire Michael Gamer,Diego Saglia,2021-05-20 This volume traces a path across the metamorphoses of tragedy and the tragic in Western cultures during the bourgeois age of nations revolutions and empires roughly delimited by the French

Revolution and the First World War Its starting point is the recognition that tragedy did not die with Romanticism as George Steiner famously argued over half a century ago but rather mutated and dispersed converging into a variety of unstable productive forms both on the stage and off In turn the tragic as a concept and mode transformed itself under the pressure of multiple social historical and political ideological phenomena This volume therefore deploys a narrative centred on hybridization extending across media genres demographics faiths both religious and secular and national boundaries The essays also tell a story of how tragedy and the tragic offered multiple means of capturing the increasingly fragmented perception of reality and history that emerged in the 19th century Each chapter takes a different theme as its focus forms and media sites of performance and circulation communities of production and consumption philosophy and social theory religion ritual and myth politics of city and nation society and family and gender and sexuality
