Summary of 100 Years of Solitude Alexander Cooper, 2021-10-16

Summary of 100 Years of Solitude: A Comprehensive Summary

One Hundred Years of Solitude begins as a flashback with Colonel Aureliano Buendía recollecting the years immediately following the founding of Macondo when a band of gypsies frequently bring technological marvels to the dreamy isolated village. José Arcadio Buendía, the insatiably curious founder of the town, is obsessed with these magical implements. Using supplies given to him by Melquíades, the leader of the gypsies, he immerses himself in scientific study to the frustration of his more practical wife Úrsula. Eventually, with Melquíades's prodding, José Arcadio Buendía begins to explore alchemy, the pseudo science of making gold out of other metals. He is driven by a desire for progress and by an intense search for knowledge that forces him into solitude. Increasingly, he withdraws from human contact, becoming unkempt, antisocial, and interested only in his pursuit of knowledge. But José Arcadio Buendía is not always a solitary scientist. On the contrary, he is the leader who oversaw the building of the village of Macondo, an idyllic place dedicated to hard work and order, filled with young people and as yet unvisited by death. In his quest for knowledge and progress, José Arcadio Buendía's obsession shifts to a desire to establish contact with civilization. He leads an expedition to the north since he knows there is only one way to be continued.
