Chen Duxiu Founder Of The Chinese:

Chen Duxiu, Founder of the Chinese Communist Party Lee Feigon, 2014-07-14 This book is the first complete study of Chen Duxiu the controversial founder and first secretary general of the Chinese Communist party Disputing many conventional views of the New Culture movement and the early history of the party Lee Feigon examines the social and political context of Chen's ideas and actions particularly his relationship with the early Chinese youth movement Originally published in 1983 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Chen Duxiu's Last Articles and Letters, 1937-1942* Gregor Benton, 2018-09-18 This book first published in 1998 collects the final letters and articles of Chen Duxiu 1879-1942 He founded the Chinese Communist Party in 1921 after a revolutionary career in the movement that overthrew the Manchus and brought in the Republic Between 1915 and 1919 he had led the New Culture Movement that electrified student youth and laid the intellectual foundations for modern China and he also helped found the Chinese Trotskyist Opposition which he then led Between his release from prison in 1937 and his death in 1942 he wrote the pieces collected here **The Genesis of Chinese Communist Foreign Policy** Michael H. Hunt, 1996 Is the Confucian tradition compatible with the Western understanding of human rights Are there fundamental human values regardless of cultural differences common to all peoples of all nations At this critical point in Communist China's history eighteen distinguished scholars address the role of Confucianism in dealing with questions of universal human rights *Shifu, Soul of Chinese Anarchism* Edward S. Krebs, 1998 The most comprehensive study of Shifu available this valuable work explores the life and political milieu of a central figure in Republican China Born in 1884 Shifu was brought down in 1915 by overwork poverty and tuberculosis Yet during that short span he became the most influential anarchist of his time Drawing on a wealth of primary source material Krebs provides an intellectual biography of this committed revolutionary and analyzes the importance of Shifu's thought during the New Culture May Fourth years as his followers fought for influence with the Marxists and later over the issue of alliance with the Nationalists Placing Shifu's life within the dynamic intellectual and political currents of the time the author describes Shifu's early work as an assassin within the anti Qing movement Examining the influence on Shifu of Confucianism and Buddhism Krebs highlights reform Buddhism's close relationship with revolutionary activism Most significantly Shifu's unflagging work to propagate anarchism during the early years of the Republic and his interactions with other socialists reveal a hitherto unknown level of activity among socialist revolutionaries This important book thus offers fresh insights not only into the anarchist movement itself but into the broader history of Chinese socialism as well **New Perspectives on**

the Chinese Revolution Tony Saich, Hans J. Van De Ven, 2015-03-04 These essays present fresh insights into the history of the Chinese Communist Party CCP from its founding in 1920 to its assumption of state power in 1949 They draw upon considerable archival resources which have recently become available Chen Tu-hsiu (Duxiu), Founder of the Chinese Communist Party Lee Feigon, 1983

Encyclopedia of Chinese History Michael Dillon, 2016-12-01 China has become accessible to the west in the last twenty years in a way that was not possible in the previous thirty The number of westerners travelling to China to study for business or for tourism has increased dramatically and there has been a corresponding increase in interest in Chinese culture society and economy and increasing coverage of contemporary China in the media Our understanding of China's history has also been evolving The study of history in the People's Republic of China during the Mao Zedong period was strictly regulated and primary sources were rarely available to westerners or even to most Chinese historians Now that the Chinese archives are open to researchers there is a growing body of academic expertise on history in China that is open to western analysis and historical methods This has in many ways changed the way that Chinese history particularly the modern period is viewed The Encyclopedia of Chinese History covers the entire span of Chinese history from the period known primarily through archaeology to the present day Treating Chinese history in the broadest sense the Encyclopedia includes coverage of the frontier regions of Manchuria Mongolia Xinjiang and Tibet that have played such an important role in the history of China Proper and will also include material on Taiwan and on the Chinese diaspora In A Z format with entries written by experts in the field of Chinese Studies the Encyclopedia will be an invaluable resource for students of Chinese history politics and culture

Poets of the Chinese Revolution Gregor Benton, 2019-06-25 This is a book of poems by four veteran Chinese revolutionaries Chen Duxiu led China's early cultural awakening before founding the Communist Party in 1921 Mao led the Party to power in 1949 Zheng Chaolin Chen Duxiu's disciple and like him a convert to Trotskyism spent 34 years in jail first under the Nationalists and then under Mao The guerrilla Chen Yi wrote poems in mountain bivouacs or the heat of battle All wrote in the classical style which Mao Zedong officially proscribed though he and other leaders kept using it Poetry especially classical poetry plays a different role in China and in Chinese revolution from in the West it is collective and collaborative The four poets were entangled with one another in various ways Chen Duxiu inspired Mao though Mao later denounced him Mao and Zheng joined the leadership under Chen Duxiu in the 1920s though Mao later gaoled Zheng The maverick Chen Yi was Zheng's associate in France and Mao's comrade in arms in China but he clashed with the Maoists in the Cultural Revolution Together the four poets illustrate the complex relationship between Communist revolution and Chinese cultural tradition

Prophets Unarmed Gregor Benton, 2015-09-01 Prophets Unarmed is an authoritative sourcebook on the Chinese Communist Party's main early opposition the Chinese Trotskyists who emerged from the Chinese Communist Party in China and Moscow in reaction to its 1927 defeat In spite of being Trotskyism's main section outside Russia they were crushed by Stalin in Moscow and by Chiang Kai shek and Mao Zedong in China thus

becoming China's most persecuted party. Their strategy in the Japan war when they failed to take up arms was short sighted and doctrinaire and they had scant impact on the revolution. Even so their association with Chen Duxiu and Wang Shiwei, their attachment to democracy and their critique of Mao's bureaucratic socialism brought them a scintilla of recognition after Mao's death. Their standpoints and proposals and their association with the democratic movement are not without relevance to China's present crisis of morals and authority.

Contender States and Modern Chinese International Thought Ferran Perez Mena, 2024-05-17

This book contends that the development of modern Chinese international thought has been profoundly shaped by the distinctive nature of the Chinese state as a contender state and its global positioning since 1912. The argument posited demonstrates that notwithstanding the varied perspectives on the international held by Chinese intellectuals throughout the 20th century there exist commonalities across the periods analyzed in this book. In essence the book emphasizes that the shared elements influencing the production of modern Chinese international thought do not derive from a unified cultural Chinese identity but rather stem from China's evolving geopolitical position in the modern world.
